Subject Index

A23187
acrosome reaction, sperm–zona binding 551
Abortion
complete abortion, conservative management, future fertility 92
ectopic pregnancy, spontaneous abortion, spontaneous conception, intrauterine pregnancy, case report 1347
first trimester, infection, infrequent cause 2058
preclinical abortions, IVF, septate uterus, hysteroscopy 730
recurrent spontaneous abortion, donor oocytes, delivery rates 2048
recurrent spontaneous abortion, Euro-Team for Early Pregnancy guidelines, letters 912
spontaneous abortion, anticardiolipin antibodies, mouse 2408
spontaneous abortion, antiphospholipid antibodies, anticardiolipin antibodies, lupus anticoagulant, implantation 2310
spontaneous abortion, antiphospholipid antibodies, low-dose aspirin, letter 1140
spontaneous abortion, chromosome abnormalities, oligomenorrhoea 2304
spontaneous abortion, clomiphene citrate, clinical abortion, comparison 2623
spontaneous abortion, diagnosis, β-HCG, prognosis 881
spontaneous abortion, endometrium, natural killer ($CD57^+$) cells, immunohistochemistry 1569
spontaneous abortion, epidemiology, methodology, reproductive hazards, letters 2333
spontaneous abortion, first trimester, infectious causes, diabetes 668
spontaneous abortion, first trimester, psychological morbidity, expectant management vs dilatation and curettage 1767
spontaneous abortion, HCG, prospective study 406
spontaneous abortion, incidence, Italy 1980–91, letter 914
spontaneous abortion, second trimester, bacterial vaginosis, ethnic origin, hygiene habit, smoking 1575
spontaneous recurrent abortion, spermatozoa, morphology, reproductive performance 117
unexplained recurrent abortion, intravenous immunoglobulin treatment, review 711
unexplained recurrent abortion, IVF, pilot study 1579
Acarbose
testosterone, hyperinsulinaemia, premenopausal women, polycystic ovary syndrome 2377
Acridine Orange test
sperm quality, infertility, investigation, clinical usefulness 784
Acrosome reaction
A23187, sperm–zona binding 551
CD46 antibody, progesterone, letters 2067
CD46 antigen, flow cytometry, fertilization, prediction 1923
cervical mucus, Healonid (cervical mucus substitute), chlortetracycline assay 1055
detection method comparison, chlortetracycline, mannosylated BSA, quinacrine 741
ESHRE Andrology Special Interest Group, workshop 1463
male infertility, classification, mannose ligands, cytoskeletal antibodies, sperm–zona binding 1905
oviductal epithelium *in vitro*, ciliary beat, sperm motility 1504
progesterone, flow cytometry, motility parameters 121
progesterone, IVF, predictive assays 1661
spermatozoa, morphology, motility, computer-assisted sperm analysis 1240
α-Actin
endometrium, arterioles, perimenopause, menorrhagia 204
Activated protein C resistance
ovarian hyperstimulation syndrome, internal jugular vein thrombosis, case report 280
Adhesions
adnexa, *Chlamydia trachomatis*, IgG, IgA, ELISA 2418
ovarian cystectomy, laparoscopy, Interceed 579
peritoneum, fibrin glue, laparotomy, rat 1877
peritoneum, infertility, rhesus disease, intrauterine transfusion, case report 2134
polycystic ovary syndrome, laparoscopy, electrosurgery, Interceed, controlled study 992
Adipose tissue
insulin, menstrual cycle 968
Adnexa
adhesions, *Chlamydia trachomatis*, IgG, IgA, ELISA 2418
adnexal torsion, laparoscopy, efficacy 998
Albumin
ovarian hyperstimulation syndrome, prophylactic i.v. albumin, letter 460
Alcohol
multiple pregnancies, risk factors 2306
Allergic reaction
ovulation induction, HMG, IVF, case report 1632
Amenorrhoea
hypothalamic amenorrhoea, ovulation induction, GnRH pulse frequency 19
Amino acids
embryos, culture, 2-cell block, physical parameters, mouse 2703
Aminopeptidases
follicular growth, cell surface aminopeptidases, bestatin, mouse 1952
Amniotic fluid
exchange functions, extra-embryonic coelom, yolk sac, first trimester 1157
inhibin, pregnancy, ELISA 2772
Ampullary cells
co-culture, preimplantation embryos, nuclei number 1678
Androgens
polycystic ovary syndrome, aetiology, plasma lipids, insulin 1848
Andrology
ESHRE Andrology Special Interest Group, workshop 1463
male infertility, need for complete investigation, letter 2807
Anejaculation
diabetes mellitus, vas aspiration, cryopreservation, ICSI, case report 334
rectal probe electroejaculation, ICSI, live birth, case report 1247
Aneuploidy
ICSI, irregular segregation, letter 2337
oocytes, meiotic spindle assembly, maternal age, confocal microscopy 2217
trisomy 21, donor insemination, French CECOS data 2319
Angiogenesis
endometrium, endothelial cell proliferation, menorrhagia, endometrial ablation 1067
Angiotensin
diet, sodium, renin, kidney, ovary, follicular fluid 956
Anovulation
clomiphene resistance, transvaginal interstitial laser treatment (TILT), ultrasonography, feasibility study, cow 808
dominant follicle, functional life span, Norplant 114
FSH, ovulation induction, gonadotrophins, decremental dose regimen 478
ovulation induction, multiple pregnancies, risk assessment, cycle characteristics 429
Anti-endometrial antibodies
ELISA, endometriosis 1180
Antibiotics
IVF, semen, asymptomatic males, unnecessary treatment 1227
preimplantation embryos, antibiotic-free medium, improved cleavage rate 1520
Anticardiolipin antibodies
autoimmunity, letters 1138
β_2-glycoprotein I, pregnancy, outcome prediction, population screening 509
IVF, women patients, antiphospholipid antibodies, intrauterine growth retardation 1185
maternal–fetal interaction, implantation, spontaneous abortion, mouse 2408
spontaneous abortion, implantation 2310
Antioxidants
preimplantation embryos, culture medium, antioxidation capacity, embryo quality 2493
seminal plasma, antioxidant capacity, lipid peroxidation, chemiluminescence assay 1655
Antiphospholipid antibodies
autoimmunity, letters 1138
IVF, women patients, intrauterine growth retardation, anticardiolipin antibodies 1185

© European Society for Human Reproduction and Embryology

maternal–fetal interaction, implantation, spontaneous abortion, mouse 2408
spontaneous abortion, implantation 2310
spontaneous abortion, low-dose aspirin, letter 1140
Antiprogestins
RU 486 (mifepristone), ZK 98,299 (onapristone), endometrium, proliferation, monkey 1533
Antisperm antibodies
Chlamydia trachomatis, heat shock proteins, hsp60 2600
Chlamydia trachomatis, heterosexual transmission, infertility 1635
IVF, hemizona assay, zona pellucida penetration assay, mouse/human 2595
semen, indirect immunobead test, IVF, fertilization rates 1418
Apoptosis
aged oocytes, DNA fragmentation, fertilization, mice 1480
follicles, atresia, nitric oxide, steroidogenesis 2484
Appendix
appendiceal uterine transplantation, mucocele, case report 1433
Aromatase
follicular fluid, granulosa–luteal cells, polycystic ovary syndrome, progesterone 2107
Aspirin
spontaneous abortion, antiphospholipid antibodies, low-dose aspirin, letter 1140
Assisted reproductive techniques
donor insemination, IVF, child development, family functioning, European study 2324
ethics, legislation, Asia 908
French law, review/opinion 1843
HIV, women, ethics 2793
legislation, sex preselection, India, editorial 685
post-coital sperm retrieval, religious acceptance, ethics 245
posthumous assisted reproduction, debate, ethics 2573
potential health hazards, immunology 701
socio-economic issues, treatment allocation 1162
success rates, professional dishonesty 695
twins of different races, donor spermatozoa, ethics, letter 915
Asthenozoospermia
ICSI, testicular vs ejaculated spermatozoa, pregnancy outcomes 1343
IVF, spermatozoa, morphology, strict criteria, cut-off evaluation 2155
Atresia
follicles, apoptosis, nitric oxide, steroidogenesis 2484
Atrial natriuretic hormone
menstrual cycle, follicular/luteal phases, hypertonic saline infusion 2392
Autoimmunity
antiphospholipid antibodies, anticardiolipin antibodies, letters 1138
antiphospholipid antibodies, spontaneous abortion, low-dose aspirin, letter 1140
maternal–fetal interaction, anticardiolipin antibodies, implantation, spontaneous abortion, mouse 2408
reproductive failure, IVF, ovarian antibodies, thyroid antibodies 1627
Azoospermia
hypergonadotrophism, maturation arrest, testicular sperm extraction, fine-needle aspiration, ICSI, delivery 769
ICSI, testicular sperm extraction, implantation/pregnancy rates 673
non-obstructive, testicular biopsy, ICSI, FSH 2176
non-obstructive azoospermia, ICSI, round/elongated spermatid injection, pronuclear development, laboratory techniques, clinical results 772, 780
obstructive azoospermia, spermatocele, fine-needle aspiration, ICSI 1919
obstructive vs non-obstructive, testicular sperm culture outcomes, letters 1587
obstructive/non-obstructive, ICSI, outcomes 1015
seminal vesicle cyst diagnosis, transrectal ultrasound, case report 566

Bacterial vaginosis
spontaneous abortion, second trimester, ethnic origin, hygiene habit, smoking 1575
Bacteriology
IVF, semen, bacterial infection, pregnancy rates 2789
semen, IVF, antibiotics, asymptomatic males, unnecessary treatment 1227
Behavioural rhythm
conception, pregnancy outcome, menstrual cycle 2276
Bestatin
cell surface aminopeptidases, follicular growth, mouse 1952
peptidase, FSH, granulosa cells, steroidogenesis, pig 497
Blood pressure
polycystic ovary syndrome, insulin resistance 23
pregnancy, progesterone, NO synthase inhibition, rat 2777
Bovine serum albumin
acrosome reaction, detection method comparison, chlortetracycline, mannosylated BSA, quinacrine 741
Brain
glucose metabolism, positron emission tomography, menstrual cycle, progesterone 2799
Breast cancer
fertility drugs, risk assessment 300
Breastfeeding
lactation, 24 hour pattern, female fertility resumption 950

CA 125
seminal plasma, correlation with semen parameters 574
Cadherin
E-cadherin, placenta, decidua, co-culture, morphological interactions, first trimester 444
Calcitonin gene-related peptide
hypertension, fetal mortality, pre-eclampsia, rates 895
Calcium
Fallopian tube, epithelial cells *in vitro*, fluid secretion, intracellular Ca^{2+}, extracellular ATP 212
spermatozoa, intracellular free Ca^{2+}, progesterone, IVF, predictive assays 1661
Cancer
breast cancer, fertility drugs, risk assessment 300
breast carcinoma, chemotherapy, IVF–ET, natural cycle, embryo cryopreservation, case report 197
cryopreservation, ovary, counselling, legislation, case report 2215
hormone replacement therapy, European Menopause Society conference 975
ovarian tissue, cryopreservation, grafting, chemotherapy, radiotherapy 1487
ovary, cryopreservation, transplantation, cancer transmission, mice 1668
ovary, ovarian cysts, laparoscopy vs laparotomy, letters 2069
testicular cancer, semen, cryopreservation, ICSI, pregnancy, case report 2645
Capacitation
cervical mucus, Healonid (cervical mucus substitute), chlortetracycline assay 1055
fertilization-promoting peptide, chlortetracycline, hamster oocyte penetration test, thyrotrophin-releasing hormone 830
spermatozoa, motility, fractal analysis 1049
Cardiological abnormalities
Turner syndrome, egg donation, risk, letter 1587
Cardiovascular disease
hormone replacement therapy, European Menopause Society conference 975
oral contraceptives (third generation), epidemiology, risks, debate 687
Cathepsin D
immunostaining, endometrium, menstrual cycle, progesterone 392
CD23
peritoneal fluid, endometriosis, ELISA 2018
CD46 antibody
acrosome reaction, progesterone, letters 2067
CD46 antigen
flow cytometry, acrosome reaction, fertilization, prediction 1923
Centrifugation
oocytes, zygotes, ultrastructure, electron microscopy, bovine 1499
Centriole
spermatozoa, inheritance, ultrastructure, embryos, mitosis 345
Cervical clamp double nut bivalve speculum
Fallopian tube, sperm perfusion, intrauterine insemination, prospective randomized comparison 2618
Cervical mucus
Healonid (cervical mucus substitute), capacitation, acrosome reaction, spermatozoa, chlortetracycline assay 1055
post-coital test, quantitative test, enzyme liquefaction 311, 318
Cervix
bicervical non-septate uterus, longitudinal vaginal septum, case report 218
cervical ripening, IL-8, IL-1β, dehydroepiandrosterone sulphate, prostaglandin E_2, rabbit 1099
combined contraceptive vaginal ring, local effects, epithelium 2443
double cervix, vaginal septum, normal uterus, case report 1350

endocervical organisms, embryo transfer catheter, microbial contamination, pregnancy rates 1687
nitric oxide, pregnancy, parturition, rat 1755
Chemotherapy
lymphoma, Hodgkin's disease, premature ovarian failure, GnRH agonist, co-treatment, clinical trial 1620
Children
donor insemination, IVF, child development, family functioning, European study 2324
IVF, development, behaviour, long-term outcome 2052
Chlamydia trachomatis
antisperm antibodies, heat shock proteins, hsp60 2600
antisperm antibodies, heterosexual transmission, infertility 1635
heat shock proteins, humoral response, salpingitis 1352
hydrosalpinx, IVF–ET, outcomes 526
IgG, IgA, ELISA, adhesions, adnexa 2418
semen, antibodies, male infertility parameters 1408
Chlortetracycline
acrosome reaction, detection method comparison, mannosylated BSA, quinacrine 741
capacitation, fertilization-promoting peptide 830
chlortetracycline assay, spermatozoa, cervical mucus, Healonid (cervical mucus substitute), capacitation, acrosome reaction 1055
Chromosomes
aged oocytes, DNA fragmentation, apoptosis, fertilization, mice 1480
aneuploidy, irregular segregation, ICSI, letter 2337
chromosomal abnormalities, ICSI, fertilization rate, karyotyping 2609
chromosomal abnormalities, male infertility, karyotyping, diagnostic value 2604
chromosomal abnormalities, multinucleated blastomeres, FISH 1492
chromosome 21 disomy, spermatozoa, FISH 722
chromosome abnormalities, first trimester, umbilico-placental blood flow, heart rate, nuchal thickness, ultrasonography 435
chromosome abnormalities, ICSI, multipronuclear zygotes, cytoskeleton 2496
chromosome abnormalities, spontaneous abortion, oligomenorrhoea 2304
ectopic pregnancy, risk factors, chromosome abnormalities 239
endometriosis, DNA ploidy analysis, flow cytometry, normal endometrium comparison 1731
'failed fertilized' oocytes, ICSI, IVF, cytogenetic analysis, FISH 2230
'failed fertilized' spermatozoa, ICSI, premature chromosome condensation, cytological study 2239
globozoospermia, oocyte activation, mouse oocytes, ICSI 2170
ICSI, genetic diseases, risk, debate 921
ICSI, sperm-derived structures, cytoskeleton, pronucleus, rhesus monkey 1703
karyotyping, chorionic villi, ectopic pregnancy 2769
male infertility, chromosome abnormalities, ICSI 330
oocytes, triploidy, IVF, gestational trophoblastic disease, case report, oocytes 1529
sex chromosomes, spermatozoa, XYY males, XXY males, in-situ hybridization 1638
spermatozoa, chromatin anomalies, ICSI, decondensation 837
spermatozoa, chromatin condensation, epididymal transit, flow cytometry 1457
spermatozoa, chromatin condensation, ICSI, pregnancy rates 2468
spermatozoa, chromosome abnormalities, head morphologies 1942
spermatozoa, condensation, DAPI staining, letter 2808
Citrate–egg yolk buffer
semen, storage, transportation, ambient temperature, sperm function 2186
Clomiphene citrate
clinical abortion, spontaneous abortion, comparison 2623
endometrium, morphometry, female infertility 844
HMG, buserelin, fresh vs frozen–thawed embryos, IVF 2097
ovarian hyperstimulation syndrome, heterotopic pregnancy, salpingectomy, case report 1583
ovulation induction, diabetes, efficacy 1403
ovulation induction, menstruation, irregular/infrequent, tamoxifen, dydrogesterone, luteal phase compliance 1435
zuclomiphene, enclomiphene, luteal cells *in vitro*, progesterone, secretion, sheep 1250
Co-culture
assisted hatching, ICSI, implantation rates 2434
assisted hatching, IVF, multiple-failure patients, implantation rates 2429
embryos, glycolysis, inner cell mass:trophectoderm ratio, viability, mouse 598
embryos, open vs microdrop system, blastocysts, development, mouse 2223
embryos, Vero cells, oviductal cells, endometrial cells, IGFBPs, mouse 1281
epididymal spermatozoa, epididymal epithelium, cryopreservation, motility, fertilization, mouse 1451
placenta, decidua, morphological interactions, first trimester, E-cadherin, Ki-67 444
preimplantation embryos, alternative systems, evaluation 1525
preimplantation embryos, Vero cells, HCG 1966
CO_2 laser
deep endometriosis, complications, LHRH, danatrol 2263
ovarian endometriomas, GnRH agonist, histology, pregnancy rates 641
Ultrapulse 500/500L, power density, tissue effects, rat 677
Coelocentesis
prenatal diagnosis, 7–9 weeks gestation, fluorescent PCR 2548
Coffee
multiple pregnancies, risk factors 2306
Coitus
behavioural rhythm, conception, pregnancy outcome, menstrual cycle 2276
Computer-assisted sperm analysis
acrosome reaction, morphology, motility 1240
capacitation, motility, fractal analysis 1049
cryopreservation, cryomicroscope, direct assessment 2687
delay between testing and IVF, reactive oxygen species 1030
ESHRE Andrology Special Interest Group, workshop 1463
pentoxifylline, motility 1929
videoframe rates, Hamilton–Thorn 304
Conception
behavioural rhythm, pregnancy outcome, menstrual cycle 2276
timing, sex ratio, letters 1812
Congenital malformations
ICSI, 423 children, prospective follow-up study 1558
Contact thermography
varicocele, diagnosis, letters 2565
Contraception
combined contraceptive vaginal ring, local effects, epithelium 2443
hypertension, risk factors, pregnancy, sexual cohabitation 2138
intrauterine contraceptive device, mechanism of action, endometrium, biochemical deficiency, placental protein 14 1220
levonorgestrel, intrauterine device, abnormal uterine bleeding, endometrium, lymphomyeloid cells 1438
Norplant, anovulation, dominant follicle, functional life span 114
Norplant, endometrium, basement membrane, microvasculature, immunohistochemistry 2142
Norplant, endometrium, progesterone receptor, menstrual cycle 2629
onapristone, post-ovulatory administration, endometrial differentiation 40
oral contraception, endometriosis, laparoscopy, female infertility, pain 387
oral contraception, endometriosis, physiological ovarian cyst, efficacy 874
oral contraceptives (third generation), cardiovascular disease, epidemiology, risks, debate 687
post-coital contraception, Yuzpe method, levonorgestrel, norgestrel, side-effects 2449
progesterone-only contraceptives, desogestrel, ovarian activity, vaginal bleeding patterns 737
third-generation oral contraceptives, risks, epidemiological study, letters 2565
use, attitudes, survey, Italy 533
Corpus luteum
gonadotrophins, GnRH agonist, ovulation induction, hypogonadotrophic hypogonadism 943
IVF, ovulation induction, HCG, mid-luteal addition, progesterone 1552
LH, receptor, pregnancy, HCG 2291
luteal cells *in vitro*, progesterone, secretion, zuclomiphene, enclomiphene, sheep 1250
subpopulations, steroidogenesis, cyclic AMP, oestradiol, testosterone 1609
tight junctions, zonula occludens-1, immunohistochemistry, baboon 1262
Cortisol
serum concentration, IVF–ET, stress, psychological evaluation 274
Crinone®
progesterone, vaginal administration, menopausal women, endometrium, immunohistochemistry, morphometry 357

Cryopreservation
computer-assisted sperm analysis, cryomicroscope, direct assessment 2687
donor insemination, cervical cap with reservoir versus standard injection, randomized controlled trial 84
embryo cryopreservation, IVF–ET, natural cycle, breast carcinoma, chemotherapy, case report 197
embryos, hydrosalpinx, implantation 1013
embryos, polyvinylpyrrolidone, Percoll, development *in vitro*/*in vivo*, mouse 2697
epididymal spermatozoa, co-culture, epididymal epithelium, motility, fertilization, mouse 1451
formaldehyde, non-enzymatic formation, oocytes, mouse 2681
IVF, donor oocytes, ectopic pregnancy, spontaneous resolution, HCG, case report 2785
IVF, fresh vs frozen–thawed embryos, HMG, buserelin, clomiphene citrate 2097
IVF, single oocyte retrieval, quadruplets, donor oocytes, astonishing fertility, case report 2136
microepididymal sperm aspiration, ICSI, pregnancy rates 133
oocytes, activation, IVF 1990
oocytes, biophysical experiments, monkey 156
oocytes, slow freezing, in-vitro maturation, mouse 2648
oocytes, theoretical modelling, fertilization, development, mouse 1296
ovarian tissue, dimethylsulphoxide, propanediol 1268
ovarian tissue, grafting, cancer, chemotherapy, radiotherapy 1487
ovary, cancer, counselling, legislation, case report 2215
ovary, cancer, transplantation, cancer transmission, mice 1668
preimplantation embryos, IVF, 82 children, follow-up, developmental performance 1565
pronuclear oocytes, ICSI, IVF–ET, pregnancy rates compared 604
propanediol, oocyte donation, ICSI, clinical experience 1513
semen, testicular cancer, ICSI, pregnancy, case report 2645
spare embryos, ethics, debate 1841
spermatozoa, ICSI, testicular biopsy, enzymatic preparation 752
spermatozoa, testicular biopsy, ICSI, pregnancies, clinical results 1309
spermatozoa, testicular biopsy, ICSI, pregnancy, case report 1306
temperature change, cryostraws, cryovials, embryos, semen 1510
testicular sperm extraction, frozen–thawed biopsy, ICSI, pregnancy, case report 2472
testicular sperm extraction, spermatozoa, motility changes, ICSI 2474
vas aspiration, anejaculation, diabetes mellitus, ICSI, case report 334
Culture media
oocytes, maturation *in-vitro*, mouse, letter 2336
Cumulative pregnancy rate
accuracy of estimations, IVF–ET 660
Cyclic AMP
steroidogenesis, corpus luteum, subpopulations 1609
Cyclic nucleotides
granulosa cells, oxytocin 152
Cystic fibrosis
CFTR mutation frequency, reduced sperm quality, male infertility 513
Cytokines
TNFα and β, IL-4 and 6, platelet-derived growth factor, peritoneal fluid, endometriosis, pain 380
Cytoskeletal antibodies
sperm–zona binding, male infertility, classification, acrosome reaction, mannose ligands 1905
Cytoskeleton
ICSI, sperm-derived structures, rhesus monkey 1703
Cytotrophoblast
cell line established, characterization 1328

Danatrol
deep endometriosis, LHRH, CO_2 laser excision, complications 2263
Danazol
endometrium, atrophy, vascular density, menstrual cycle, menopause 2009
DAPI staining
spermatozoa, chromosomes, condensation, letter 2808
Decidua
leukocytes, progesterone, IL-8 2257
placenta, co-culture, morphological interactions, first trimester, E-cadherin, Ki-67 444
third trimester, macrophages, magnetic separation 451
vascular endothelial growth factor, tyrosine kinase receptors, flt, KDR, immunohistochemistry 1090
Dehydroepiandrosterone sulphate
cervical ripening, rabbit 1099
Dermoid cyst
transvaginal oocyte retrieval, acute abdomen, case report 1897
Desogestrel
progesterone-only contraceptives, ovarian activity, vaginal bleeding patterns 737
Dexamethasone
IVF, ovulation induction, randomized trial, tubal infertility 1606
ovulation induction, pilot study 253
Diabetes
diabetes mellitus, anejaculation, vas aspiration, cryopreservation, ICSI, case report 334
ovulation induction, clomiphene citrate, efficacy 1403
polycystic ovary syndrome, obesity, pregnancy, insulin 2382
polycystic ovary syndrome, uric acid, insulin, obesity 2405
Diamond–Blackfan anaemia
donor oocytes, premature ovarian failure, pregnancy, case report 1123
Diazepam
placenta, first trimester, in-vivo transfer 889
Diet
sodium, renin, prorenin, angiotensin, kidney, ovary, follicular fluid 956
Diethylstilboestrol
endometrium, ultrasonography, echo pattern, IVF, outcome prediction 2719
exposure, uterus, vascular/morphological changes, ultrasonography 2531
Dilatation and curettage
first trimester, psychological morbidity, expectant management vs dilatation and curettage 1767
DNA fingerprinting
prenatal diagnosis, 7–9 weeks gestation, coelocentesis, fluorescent PCR 2548
DNA fragmentation
aged oocytes, apoptosis, fertilization, mice 1480
Donor gametes
information access, survey methods, letters 1360
social context, ethics 941
Donor insemination
cervical cap with reservoir versus standard injection, randomized controlled trial 84
children, child development, family functioning, European study 2324
congenital abnormalities, French CECOS data, trisomy 21 2319
donor's right to retire, debate 2569
donors, fathers/non-donors, students/non-donors, attitudes, questionnaire 2061
Human Fertilisation and Embryology Authority, 'Patients guide to clinics', debate 1835
Human Fertilisation and Embryology Authority, 'Patients' Guide', clinical practice, international viewpoints, debate 1363
ICSI, choice of treatment, psychological evaluation 2461
IVF–ET, twins of different races, ethics, letter 915
partner consent, secrecy, counselling, ethics 1132
personal donors, anonymity, family relationships, questionnaire/interview 2558
posthumous assisted reproduction, debate, ethics 2573
psychological evaluation, Osgood questionnaire 294
recruitment, motivation, attitudes, payment 746
sex ratio, cycle day of insemination, mammals/humans, letters 2806
single/married women, psychological evaluation, questionnaire 2554
timing, ovulation, home testing kit vs laboratory testing, pregnancy rates 1674
Donor oocytes
advanced reproductive age ⩾ 45 years, obstetric outcomes, clinical study 2540
age of donor, oocyte efficacy, retrospective data 820
cancer, ovary, cryopreservation, transplantation, cancer transmission, mice 1668
clinical practice, anonymity, payment, debate 1149
cryopreservation, propanediol, ICSI, clinical experience 1513
Diamond–Blackfan anaemia, premature ovarian failure, pregnancy, case report 1123
egg-sharing, payment to donors, pilot study, ethics 1126
embryo transfer on day 7 of luteal phase, spontaneous ovulation, twin pregnancy, case report 893
ethics, legislation, institutional review board 1595
ICSI, clinical outcomes 548

IVF, cryopreservation, ectopic pregnancy, spontaneous resolution, HCG, case report 2785
oestradiol administration, effects, letter 2564
ovulation induction, FSH-HP, HMG, randomized trial, pregnancy rates 1864
paid versus unpaid donation, regulation, ethics, debate 2353
posthumous assisted reproduction, debate, ethics 2573
premature ovarian failure, spontaneous pregnancy, case report, letter 1359
recipient cycle induction, flexible protocol, pregnancy rate 1063
recurrent spontaneous abortion, delivery rates 2048
related donors, anonymous permutation, improved pregnancy rates 2425
relaxin, pregnancy, plasma osmolality 1105
single oocyte retrieval, IVF, quadruplets, astonishing fertility, case report 2136
Turner syndrome, cardiological abnormalities, risk, letter 1587

Dydrogesterone
luteal phase ovulation induction, menstruation irregular/infrequent, clomiphene citrate, tamoxifen, compliance 1435

Ectopic pregnancy
chorionic villi, karyotyping 2769
heterotopic pregnancy, ovarian hyperstimulation syndrome, clomiphene citrate, salpingectomy, case report 1583
increasing rates, endometriosis, letter 2337
IVF, cryopreservation, donor oocytes, spontaneous resolution, HCG, case report 2785
IVF, delayed implantation, HCG, subunits 2750
laparoscopy, surgery, methotrexate, cost analysis 2762
methotrexate, transvaginal intratubal injection, subsequent fertility, 100 cases 420
primary abdominal pregnancy, laparoscopy, surgery, case report 2546
risk factors, chromosome abnormalities 239
risk factors, hormone concentrations, oestrogen, progesterone, debate 233
salpingectomy, laparoscopy, subsequent fertility 1199
seasonal variation, Finland, letter 683
spontaneous abortion, spontaneous conception, intrauterine pregnancy, case report 1347
subsequent fertility, population-based cohort, France 99

EDTA
embryos, culture, 2-cell block, amino acids, mouse 2703

Electro-acupuncture
blood flow impedance, uterine artery, female infertility, clinical outcomes 1314

Electro-ejaculation
rectal probe electro-ejaculation, ICSI, live birth, case report 1247

ELISA
anti-endometrial antibodies, endometriosis 1180
IgG, IgA, adhesions, adnexa, *Chlamydia trachomatis* 2418

Embryo transfer
catheter, IVF, microbial contamination, endocervical organisms, pregnancy rates 1687
number of replacements, statistical implications 10, 229
performed by nursing staff, pregnancy rates 105
platelet activating factor, implantation, mouse 2746
techniques, 'mock' transfer, letters 458
tubal transfer, GIFT, ZIFT, clinical role, debate 1815

Embryos
blastocyst, IVF, selection criterion, glycolysis, mouse 1975
blastocyst, polar trophectoderm, clonal analysis, mouse 1979
blastocyst formation, ICSI, spermatids, cow 824
blastocyst formation rates, IVF, serum-free medium, leukaemia inhibitory factor 191
blastocysts, pregnancy-specific β-1 glycoprotein (SP1), IVF, quality assessment 1038
blastocysts, trophectoderm projections, time-lapse videomicrography, bovine/equine/human 2739
centriole, spermatozoa, inheritance, ultrastructure 345
co-culture, glycolysis, inner cell mass:trophectoderm ratio, viability, mouse 598
co-culture, granulosa cells, embryo maturation, FSH-primed monkeys 1698
co-culture, nuclei number, ampullary cells 1678
co-culture, open vs microdrop system, blastocysts, development, mouse 2223
co-culture, Vero cells, oviductal cells, endometrial cells, IGFBPs, mouse 1281
cryopreservation, legislation, Denmark, debate 703
cryopreservation, polyvinylpyrrolidone, Percoll, development *in vitro*/*in vivo*, mouse 2697
cryopreservation, spare embryos, ethics, debate 1841
cryopreservation, temperature change, cryostraws, cryovials 1510
culture, 2-cell block, amino acids, EDTA, physical parameters, mouse 2703
fetal liver length, ultrasonography, diagnostic applications 2758
ICSI, embryo quality, fertilization rate, oocyte morphology 595
IVF–ET, sperm–oocyte interaction, reduced exposure time, improved implantation rate, reactive oxygen species 166
legislation, Denmark, debate 703
multinucleated blastomeres, chromosomal abnormalities, FISH 1492
oocytes, cryopreservation, theoretical modelling, fertilization, development, mouse 1296
preimplantation embryos, co-culture, alternative systems, evaluation 1525
preimplantation embryos, co-culture, Vero cells, HCG 1966
preimplantation embryos, culture medium, antioxidation capacity, embryo quality 2493
preimplantation embryos, growth, sex-related differences, sheep 621
preimplantation embryos, growth factors, immunocytochemical localization, Fallopian tube 184
preimplantation embryos, quality, oocyte retrieval, HCG, follicles, blood flow, ultrasonography 2512
preimplantation embryos, second cleavage division *in vitro*, glucose, phosphate, metabolism, hamster 177
protein-free culture medium, blastocyst, primate 1690
umbilical artery, contraction, endothelin-1, oxygen 2767
zygotes, cytoplasts, electrofusion, development, mouse 1287

Empty follicle syndrome
HMG, in-vivo biological activity, letters 459

Endometriosis
CD23, peritoneal fluid, ELISA 2018
deep endometriosis, CO_2 laser excision, complications, LHRH 2263
diagnosis time, USA and UK 878
DNA ploidy analysis, flow cytometry, normal endometrium comparison 1731
ectopic pregnancy, increasing rates, letter 2337
endometrioma, cyst fluid characteristics, iron concentration, magnetic resonance imaging, relaxation time 857
genetics, age of onset of pain, sister-pair survey 403
GnRH agonist, leuprolide, 3-monthly vs monthly depot, pelvic pain 2732
GnRH analogue, magnetic resonance imaging, prognostic application 1083
hormonal suppressive therapy, physiological ovarian cyst, efficacy 874
hsp60, interferon γ, peritoneal fluid 2736
IGFBP, peritoneal fluid, immunoassay 1741
IL-6, Il-1β, tumour necrosis factor-α, interferon γ, progesterone, oestradiol 2269
intercellular adhesion molecule-1, endometrium, stromal cells 1190
intrauterine insemination, ovulation induction, GnRH agonist, ultralong protocol 398
laparoscopy, female infertility, pain, oral contraception 387
leukocytes, peritoneal fluid, peripheral circulation, menstrual cycle, FACS analysis, baboon 1736
ovarian endometriomas, GnRH agonist, CO_2 laser, histology, pregnancy rates 641
peritoneal fluid, antibodies, antigens, Western blot analysis 861
peritoneal fluid, TNFα and β, IL-4 and 6, platelet-derived growth factor, pain 380
peritoneum, rectovaginal nodules, adenomyosis, stereometry 224
pituitary–ovarian dysfunction, progestogen, follicular fluid, unexplained infertility 647
retrograde menstruation, peritoneal fluid, laparoscopy, baboons 2022
uterosacral ligaments, laparoscopy, efficacy 868
uterosacral ligaments, ultrasonography, transrectal 2014
uterus, hyperperistalsis, dysperistalsis, female infertility 1542
vascular endothelial growth factor, peritoneal fluid, cyclic variation 220

Endometrium
anti-endometrial antibodies, ELISA, endometriosis 1180
arterioles, α-actin, perimenopause, menorrhagia 204
atrophy, vascular density, menstrual cycle, danazol, GnRH agonist, menopause 2009
basement membrane, microvasculature, immunohistochemistry, Norplant, contraception 2142
cathepsin D, immunostaining, menstrual cycle, progesterone 392
clomiphene citrate, morphometry, female infertility 844

endometrial differentiation, onapristone, post-ovulatory administration, contraception 40
endothelial cell proliferation, menorrhagia, endometrial ablation, angiogenesis 1067
epithelium, stroma, *in vitro*, TNFα production, placental protein 14, IL-1 1318
extracellular matrix proteins, luteal phase, immunohistochemistry 2713
follicular phase, female infertility, normal menstrual cycles, histology, morphometry, ultrasonography 1719
glandular epithelium, nuclear morphometry, nuclear channel system, female infertility 2251
glandular volume, ovulation induction, IVF–ET, hormone replacement therapy 376
heat shock proteins, menstrual cycle, stress, immunohistochemistry 633
hormone replacement therapy, growth profiles, endometrial thickness, implantation 2724
hormone replacement therapy, menopause, cycle variability, bleeding pattern 503
intercellular adhesion molecule-1, stromal cells, endometriosis 1190
intrauterine contraceptive device, mechanism of action, biochemical deficiency, placental protein 14 1220
leukocytes, necrosis, immunostaining, progestogen, high doses 1713
luteal phase, RU 486, morphometric analysis, histochemistry, monkey 2026
luteal phase deficiency, α-inhibin, progesterone 2591
lymphomyeloid cells, levonorgestrel, intrauterine device, abnormal uterine bleeding 1438
menopausal women, progesterone, Crinone®, vaginal administration, immunohistochemistry, morphometry 357
natural killer ($CD57^+$) cells, immunohistochemistry, spontaneous abortion 1569
osseus metaplasia, hysteroscopy, case report 2537
photodynamic therapy, regeneration model, electron microscopy, rabbit 1992
post-menopausal women, morphology, function tests 2246
progesterone receptor, menstrual cycle, Norplant 2629
proliferation, implantation, RU486, daily low dose, controlled trial 2518
proliferation, oestrogen receptor, progesterone receptor, RU 486 (mifepristone), ZK 98,299 (onapristone), monkey 1533
stromal cells, fibroblasts, granulocytes, menstrual cycle 850
stromal sarcoma, hysteroscopy, diagnosis, case report 2797
superoxide dismutase, lipid peroxide, menstrual cycle, pregnancy 1073
Th2 cells, interleukins, menstrual cycle, pregnancy, immunohistochemistry 1747
thickness, pregnancy prediction, IVF, ICSI, ultrasonography 1538
ultrasonography, echo pattern, diethylstilboestrol, IVF, outcome prediction 2719
vascular smooth muscle, oestrogen receptor, progesterone receptor, menorrhagia, immunohistochemistry 2003

Endothelin
endothelin-1, umbilical artery, contraction, oxygen 2767
follicular fluid, ovulation induction, IVF–ET 269

Epididymis
cyst, azoospermia, spermatocele, fine-needle aspiration, ICSI 1919
spermatozoa, epididymal transit, chromatin condensation, flow cytometry 1457

ESHRE Capri Workshop
infertility, prevalence, diagnosis, treatment, guidelines 1775

ESHRE guidelines
prenatal diagnosis, fetoscopy, fetal tissue sampling, letter 682

Ethics
assisted reproductive techniques, donor spermatozoa, twins of different races, letter 915
assisted reproductive techniques, French law, review/opinion 1843
assisted reproductive techniques, legislation, Asia 908
assisted reproductive techniques, post-coital sperm retrieval, religious acceptance 245
cryopreservation, spare embryos, debate 1841
donor gametes, information access, survey methods, letters 1360
donor insemination, donor's right to retire, debate 2569
donor insemination, donors, fathers/non-donors, students/non-donors, attitudes, questionnaire 2061
donor insemination, personal donors, anonymity, family relationships, questionnaire/interview 2558
donor oocytes, clinical practice, anonymity, payment, debate 1149
donor oocytes, egg-sharing, payment to donors, pilot study 1126
donor oocytes, legislation, institutional review board 1595
donor oocytes, paid versus unpaid donation, regulation, debate 2353
donor spermatozoa, partner consent, secrecy, counselling 1132
gamete donation, social context 941
HIV, assisted reproductive techniques, women 2793
posthumous assisted reproduction, debate 2573
preimplantation diagnosis, genetic diseases, 'eugenics', opinion 463
preimplantation diagnosis, genetic diseases, maternal age, debate 2349
preimplantation diagnosis, opinion 707, 708
sex preselection, family balancing, debate 2339
sex preselection, family balancing, debate 2577

'Eugenics'
preimplantation diagnosis, ethics, opinion 707, 708

European Menopause Society conference
menopause, hormone replacement therapy, osteoporosis, cardiovascular disease, cancer 975

Evolution
implantation, immunology 283

Extra-embryonic coelom
exchange functions, yolk sac, first trimester 1157
extra-embryonic coelomic fluid, inhibin, pregnancy, ELISA 2772

Extracellular matrix proteins
endometrium, luteal phase, immunohistochemistry 2713

Fallopian tube
adnexa, adhesions, *Chlamydia trachomatis*, IgG, IgA, ELISA 2418
adnexal torsion, laparoscopy, efficacy 998
ampullary cells, co-culture, preimplantation embryos, nuclei number 1678
epithelial cells *in vitro*, fluid secretion, intracellular Ca^{2+}, extracellular ATP 212
falloposcopy *in vitro* vs histology, pathology, diagnosis 2130
GIFT, choice of side, outcomes, retrospective data 1881
GIFT, ZIFT, clinical role, debate 1815
hydrosalpinx, implantation, cryopreserved embryos 1013
hydrosalpinx, IVF–ET, outcomes, *Chlamydia trachomatis* 526
hydrosalpinx, salpingectomy, IVF, debate 2079
hydrosalpinx, salpingectomy, IVF, pregnancy rates, letters 2068
hydrosalpinx, salpingectomy, IVF–ET, improved pregnancy rates 523
hysterosalpingography, tubal pathology, diagnosis, accuracy, reproducibility 1204
oviductal epithelium *in vitro*, acrosome reaction, ciliary beat, sperm motility 1504
proximal tubal occlusion, diagnosis, classification, GnRH analogue, GIFT, pregnancy rates 986
proximal tubal occlusion, diagnosis, treatment, debate 1823
proximal tubal occlusion, microsurgery, IVF, embryo transfer, birth rate 2613
salpingectomy, laparoscopy, ectopic pregnancy, subsequent fertility 1199
salpingitis, *Chlamydia trachomatis*, heat shock proteins, humoral response 1352
salpingostomy, surgical experience, live birth rates, IVF–ET 77
sperm perfusion, cervical clamp double nut bivalve speculum, intrauterine insemination, prospective randomized comparison 2618
tubal damage grade, IVF, prognosis 2438
tubal ligation, Doppler blood flow, uterine artery, ovarian artery 1195
tubal patency test, hysterosalpingo-contrast sonography, selective tubal catheterization, evaluation 1423
tubo-uterine sphincter, intramural portion, reflex 2527

Fecundity
conception vs non-conception cycles, saliva, steroids, oestradiol, follicular phase 2090

Fertility
lactation, prolactin, 24 hour pattern, female fertility resumption 950

Fertilization
aged oocytes, DNA fragmentation, apoptosis, mice 1480
antisperm antibodies, hemizona assay, zona pellucida penetration assay, mouse/human 2595
cryopreservation, oocytes, activation 1990
epididymal spermatozoa, co-culture, epididymal epithelium, cryopreservation, mouse 1451
fertilization-promoting peptide, capacitation, chlortetracycline, hamster oocyte penetration test, thyrotrophin-releasing hormone 830
IVF, sperm–oocyte interaction, long exposure time, high sperm concentration, detrimental effect 2507
prediction, CD46 antigen, flow cytometry, acrosome reaction 1923
zona pellucida, photoablation, UV laser, variable sperm concentration, implantation, mouse 1273

Fertilization-promoting peptide
capacitation, chlortetracycline, hamster oocyte penetration test, thyrotrophin-releasing hormone 830
Fetal growth restriction
Klippel–Trénaunay–Weber syndrome, case report 2544
Fetal mortality
calcitonin gene-related peptide, hypertension, pre-eclampsia, rates 895
Fetus
heart rate, umbilico-placental blood flow, first trimester, chromosome abnormalities, nuchal thickness, ultrasonography 435
immunosuppression, feto-embryonic defence system, glycodelin, selectin 467
prenatal diagnosis, fetoscopy, fetal tissue sampling, ESHRE guidelines, letter 682
Fibrin glue
peritoneum, adhesions, laparotomy, rat 1877
Fibroblasts
endometrium, menstrual cycle 850
FISH
chromosome 21 disomy, spermatozoa 722
Klinefelter's syndrome, 47,XXY males, testicular sperm extraction, ICSI, preimplantation diagnosis 1650
preimplantation diagnosis, pronuclei, 'undocumented' embryos, detection of ploidy 2502
preimplantation diagnosis, pros and cons, older women, genetic diseases, debate 2071
Flow cytometry
granulosa cells, follicular fluid, CD45 2211
Follicles
anovulation, dominant follicle, functional life span, Norplant 114
anovulation, FSH, ovulation induction, gonadotrophins, decremental dose regimen 478
atresia, apoptosis, nitric oxide, steroidogenesis 2484
blood flow, HCG, oocyte retrieval, preimplantation embryos, quality 2512
cryopreservation, dimethylsulphoxide, propanediol 1268
empty follicle syndrome, HMG, in-vivo biological activity, letters 459
follicle number, relaxin, ovulation induction, IVF 2036
follicle numbers, maternal age, menopause, stochastic model 1484
follicle size, oestradiol, secretion, TNFα 1256
follicular blood flow, ultrasonography, oocyte recovery, embryo quality 109
follicular growth, cell surface aminopeptidases, bestatin, mouse 1952
follicular phase, oocyte maturation, sex ratio 2
immature follicles, protein patterns, amino acid sequencing, 2-D electrophoresis 798
nitric oxide, oestradiol, ovarian blood flow 1947
nitric oxide synthase, cellular localization, rat 2667
polycystic ovary syndrome, steroidogenesis, cell proliferation, immunohistochemistry 1387
preantral follicles, maturation *in vitro*, culture system, fertilization 2656
primary follicles, cryopreservation, slow freezing, in-vitro maturation, mouse 2648
white blood cells, populations, localization, menstrual cycle, menopause 790
Follicular fluid
cells, morphometry, DNA cytometry, IVF, maternal age, outcomes 2200
endothelin, ovulation induction, IVF–ET 269
gonadotrophin surge-inhibiting factor, detection 490
granulosa–luteal cells, polycystic ovary syndrome, aromatase, progesterone 2107
granulosa cells, flow cytometry, CD45 2211
parasites, IVF–ET, case report 531
pituitary–ovarian dysfunction, endometriosis, unexplained infertility, progestogen 647
protein patterns, amino acid sequencing, 2-D electrophoresis 798
sodium, diet, renin, prorenin, angiotensin, kidney 956
sperm–oocyte interaction, hemizona binding assay, acrosome reaction, progesterone 2674
TNFα, immunological infertility, sex steroids 265
Follicular phase
ovulation induction, HMG, GnRH antagonist, Cetrorelix 2114
Formaldehyde
non-enzymatic formation, cryopreservation, oocytes, mouse 2681
Fractal analysis
spermatozoa, capacitation, motility 1049
Fructose
seminal plasma, spermatozoa, motility 2465
FSH
anovulation, ovulation induction, gonadotrophins, decremental dose regimen 478
azoospermia, non-obstructive, testicular biopsy, ICSI 2176
basal concentrations, maternal age, ovulation induction, intrauterine insemination, no. of cycles, pregnancy prediction 1214
circannual rhythm, men 248
follicular phase, IVF, outcome prediction, tubal infertility 2396
FSH-HP, oocytes, nuclear maturity, morphology, ICSI, HMG 2387
FSH-HP, HMG, IVF, GnRH analogue, outcomes 1209
FSH-HP, HMG, ovulation induction, randomized trial, donor oocytes, pregnancy rates 1864
FSH-primed monkeys, preimplantation embryos, co-culture, granulosa cells, embryo maturation 1698
FSH:LH ratio, pituitary desensitization, GnRH agonist, ovarian responsiveness 1615
granulosa cells, bestatin, peptidase, steroidogenesis, pig 497
IVF, GnRH agonist, buserelin, ovarian reserve, outcomes 1393
menstrual cycle, ovarian reserve, variability 486
ovarian stimulation, HMG, comparison, oestradiol 474
ovary, granulosa cells, steroidogenesis, growth hormone releasing hormone, IGF-I, rat 50
ovulation induction, GnRH agonist, low dose, poor responders 1169
ovulation induction, LH, hypogonadotrophic hypogonadism, Kallman's syndrome, pregnancy, case report 70
ovulation induction, polycystic ovary syndrome, low dose regimens, step up vs step up and step down, clinical trial 2581
pFSH/FSH-HP, HMG, comparison of regimens 2400
purified urinary FSH, hormone profile, administration route, LH, menotrophins 1854
rFSH, IVF, ovulation induction, HMG, allergic reaction 1632
rhFSH, ovulation induction, IVF–ET, embryo development, rhesus monkey 608
urinary/recombinant FSH, oestradiol, inhibin, secretory patterns 962
urofollitrophin, Follegon, Metrodin, bioequivalence 61

Gamete donation
social context, ethics 941
Genetic diseases
age-related sperm functions, male age 558
chromosomal abnormalities, male infertility, karyotyping, diagnostic value 2604
ICSI, pregnancy outcomes 1113
ICSI, 423 children , prospective follow-up study 1558
ICSI, risk, debate 2347
ICSI, risk, sperm selection 2359
karyotyping, ICSI, chromosomal abnormalities, fertilization rate 2609
Klinefelter's syndrome, 47,XXY males, testicular sperm extraction, ICSI 1644
preimplantation diagnosis, ethics, 'eugenics', opinion 463
preimplantation diagnosis, maternal age, ethics, debate 2349
preimplantation diagnosis, pros and cons, older women, genetic diseases, debate 2071
prenatal diagnosis, 7–9 weeks gestation, coelocentesis, fluorescent PCR 2548
spermatozoa, sex chromosomes, XYY males, XXY males, in-situ hybridization 1638
Genetics
endometriosis, age of onset of pain, sister-pair survey 403
sex ratio, genetic determinants 939
spermatid conception, ICSI, biological concerns, clinical approaches 1371
Gestational trophoblastic disease
IVF, oocytes, chromosomes, triploidy, case report 1529
GIFT
choice of side, outcomes, retrospective data 1881
clinical role, debate 1815
multiple pregnancy, risk factors 655
proximal tubal occlusion, GnRH analogue, pregnancy rates 986
Globozoospermia
chromosomes, oocyte activation, mouse oocytes, ICSI 2170

Glucocorticoids
dexamethasone, IVF, ovulation induction, randomized trial, tubal infertility 1606
Glucose
glucose metabolism, brain, positron emission tomography, menstrual cycle, progesterone 2799
preimplantation embryos, second cleavage division *in vitro*, phosphate, metabolism, hamster 177
Glycodelin
immunosuppression, feto-embryonic defence system, selectin 467
Glycolysis
blastocyst, IVF, selection criterion, mouse 1975
embryos, co-culture, inner cell mass:trophectoderm ratio, viability, mouse 598
β_2-Glycoprotein I
anticardiolipin antibodies, pregnancy, outcome prediction, population screening 509
GnRH
baseline concentrations, oestradiol, pseudopregnancy, rat 13
ovulation induction, GnRH pulse frequency, hypothalamic amenorrhoea 19
pituitary response, RU 486, gonadotrophins 2585
GnRH agonist
buserelin, ovarian reserve, FSH, IVF, outcomes 1393
chemotherapy, co-treatment, lymphoma, Hodgkin's disease, premature ovarian failure, clinical trial 1620
endometrium, atrophy, vascular density, menstrual cycle, menopause 2009
leuprolide, 3-monthly vs monthly depot, endometriosis, pelvic pain 2732
low dose, poor responders, FSH, IVF 1169
ovarian endometriomas, CO_2 laser, histology, pregnancy rates 641
ovarian responsiveness, FSH:LH ratio 1615
ovulation induction, corpus luteum, gonadotrophins, hypogonadotrophic hypogonadism 943
ovulation induction, cyst formation reduced, norethindrone acetate, leuprolide acetate 1035
ovulation induction, ultralong protocol, intrauterine insemination, endometriosis 398
progestogen pretreatment, flare-up, IVF, outcome 1859
triptorelin, dose assessment, double-blind randomized trial 55
GnRH analogue
buserelin, HMG, clomiphene citrate, fresh vs frozen–thawed embryos, IVF 2097
endometriosis, magnetic resonance imaging, prognostic application 1083
ovarian hyperstimulation syndrome, debate 1143
ovarian hyperstimulation syndrome, prevention, HCG, IVF, case–control study 1399
proximal tubal occlusion, diagnosis, classification, GIFT, pregnancy rates 986
GnRH antagonist
Cetrorelix, ovulation induction, follicular phase, HMG 2114
Cetrorelix, ovulation induction, HMG, progesterone, serum concentrations 1405
Gonadotrophin surge-inhibiting factor
follicular fluid, detection 490
Gonadotrophins
corpus luteum, GnRH agonist, ovulation induction, hypogonadotrophic hypogonadism 943
GnRH, RU 486, pituitary response 2585
isolated LH hypergonadotrophinaemia, case report 64
ovary, granulosa cells, extracellular matrix, culture, HCG 336
ovulation induction, decremental dose regimen, FSH, anovulation 478
pituitary desensitization, GnRH agonist, ovarian responsiveness, FSH:LH ratio 1615
Grafting
ovarian tissue, cryopreservation, cancer, chemotherapy, radiotherapy 1487
Granulocytes
endometrium, menstrual cycle 850
Granulosa–luteal cells
polycystic ovary syndrome, follicular fluid, aromatase, progesterone 2107
Granulosa cells
co-culture, preimplantation embryos, embryo maturation, FSH-primed monkeys 1698
extracellular matrix, culture, HCG 336
follicular fluid, flow cytometry, CD45 2211
oestradiol, secretion, TNFα, FSH, follicle size 1256
oxytocin, progesterone, oestradiol, IGF-I, prostaglandin $F_{2\alpha}$, cyclic nucleotides 152
steroidogenesis, FSH, bestatin, peptidase, pig 497
steroidogenesis, growth hormone releasing hormone, IGF-I, FSH, rat 50
Growth factors
immunocytochemical localization, preimplantation embryos, Fallopian tube 184
Growth hormone releasing hormone
ovary, granulosa cells, steroidogenesis, IGF-I, FSH, rat 50

Haemolytic disease
rhesus disease, infertility, adhesions, peritoneum, case report 2134
Hamster oocyte penetration test
capacitation, fertilization-promoting peptide 830
HCG
β-HCG, early pregnancy failure, diagnosis, prognosis 881
early pregnancy loss, prospective study 406
ectopic pregnancy, spontaneous resolution, donor oocytes, IVF, cryopreservation 2785
follicles, blood flow, oocyte retrieval, preimplantation embryos, quality 2512
ovarian hyperstimulation syndrome, prevention, GnRH analogue, IVF 1399
ovary, granulosa cells, extracellular matrix, culture 336
ovulation induction, mid-luteal addition, corpus luteum, progesterone 1552
placenta, ritodrine, oxytocin, *in vitro*/*in vivo* influence 664
pregnancy, corpus luteum, LH, receptor 2291
preimplantation embryos, co-culture, Vero cells 1966
subunits, IVF, ectopic pregnancy, delayed implantation 2750
Healonid (cervical mucus substitute)
capacitation, acrosome reaction, spermatozoa, chlortetracycline assay 1055
Health insurance
reproductive immunotherapy, USA 72
Heat shock proteins
endometrium, menstrual cycle, stress, immunohistochemistry 633
hsp60, antisperm antibodies, *Chlamydia trachomatis* 2600
hsp60, interferon γ, peritoneal fluid, endometriosis 2736
humoral response, salpingitis, *Chlamydia trachomatis* 1352
Hemizona binding assay
spermatozoa, medium composition, protein source, pipette size 1516
Heterotopic pregnancy
IVF–ET, ovarian hyperstimulation syndrome, case report 68
ovarian hyperstimulation syndrome, clomiphene citrate, salpingectomy, case report 1583
HIV
assisted reproductive techniques, women, ethics 2793
semen analysis, p24 antigen, spermiophagy 765
HMG
buserelin, clomiphene citrate, fresh vs frozen–thawed embryos, IVF 2097
FSH-HP, IVF, GnRH analogue, outcomes 1209
FSH-HP, ovulation induction, randomized trial, donor oocytes, pregnancy rates 1864
IGF-I, IGFBP-1, polycystic ovary syndrome 716
in-vivo biological activity, empty follicle syndrome, letters 459
oocytes, nuclear maturity, morphology, ICSI, FSH HP 2387
ovarian stimulation, FSH, comparison, oestradiol 474
ovulation induction, allergic reaction, IVF, case report 1632
ovulation induction, follicular phase, GnRH antagonist, Cetrorelix 2114
ovulation induction, pFSH/FSH HP, HMG 2400
Hodgkin's disease
lymphoma, chemotherapy, premature ovarian failure, GnRH agonist, co-treatment, clinical trial 1620
Hormone replacement therapy
endometrium, glandular volume, menstrual cycle 376
endometrium, growth profiles, endometrial thickness, implantation 2724
menopause, cycle variability, bleeding pattern 503
osteoporosis, cardiovascular disease, cancer, European Menopause Society conference 975
progesterone, Crinone®, vaginal administration, menopausal women, endometrium, immunohistochemistry morphometry
Human Fertilisation and Embryology Authority
'Patients' Guide', clinical practice, international viewpoints, debate 1363
donor insemination, IVF, 'Patients guide to clinics', debate 1835

17α-Hydrolase 17,20 lyase
deficiency, ovarian hyperstimulation syndrome, oestradiol, case report 2119
Hydrosalpinx
implantation, cryopreserved embryos 1013
IVF–ET, outcomes, *Chlamydia trachomatis* 526
salpingectomy, IVF, debate 2079
salpingectomy, IVF–ET, improved pregnancy rates 523
salpingectomy, pregnancy rates, IVF, letters 2068
Hypergonadotrophism
azoospermatozoa, maturation arrest, testicular sperm extraction, fine-needle aspiration, ICSI, delivery 769
Hypertension
calcitonin gene-related peptide, fetal mortality, pre-eclampsia, rates 895
risk factors, pregnancy, contraception, sexual cohabitation 2138
Hypogonadotrophic hypogonadism
Kallman's syndrome, ovulation induction, FSH, LH, pregnancy, case report 70
ovarian hyperstimulation syndrome, low oestradiol concentrations, case report 1177
ovulation induction, GnRH agonist, gonadotrophins, corpus luteum 943
β-thalassaemia major, hormonal profile, spermatogenesis, men 1900
Hypothalamic amenorrhoea
ovulation induction, GnRH pulse frequency 19
Hysterectomy
laparoscopy, complications, risk, retrospective study 2422
laparoscopy, nulliparous patients, surgical results 2122
Hysterosalpingo-contrast sonography

'failed fertilized' spermatozoa, premature chromosome condensation, cytological study 2239
fertilization failure, IVF, efficacy, oocyte quality 1963
fertilization rate, oocyte morphology, embryo quality 595
frozen-thawed testicular biopsy, pregnancy, case report 2197
genetic diseases, risk, debate 921
genetic diseases, risk, debate 2347
genetic diseases, risk, sperm selection 2359
globozoospermia, chromosomes, oocyte activation, mouse oocytes 2170
immobilization of spermatozoa, dissection of tail, fertilization/pregnancy rates 2640
immotile spermatozoa, fertilizing ability, Kartagener syndrome, subzonal insemination 2180
implantation, IVF, comparison, teratozoospermia 1086
implantation, prediction, maternal age, case-controlled study 1324
injection characteristics, oolemma breakage patterns, outcomes 172
IVF–ET, pronuclear oocytes, cryopreservation, pregnancy rates compared 604
Klinefelter's syndrome, 47,XXY males, testicular sperm extraction, preimplantation diagnosis, FISH 1650
Klinefelter's syndrome, 47,XXY males, testicular sperm extraction 1644
microepididymal sperm aspiration, cryopreservation, pregnancy rates 133
microepididymal sperm aspiration, percutaneous epididymal sperm aspiration, pros/cons, letters 680
multipronuclear zygotes, chromosome abnormalities, cytoskeleton 2496
non-obstructive azoospermia, round/elongated spermatid injection, pronuclear development, laboratory techniques, clinical results, azoospermia 772, 780
non-obstructive azoospermia, testicular sperm extraction, pregnancy rates 756
oocyte donation, cryopreservation, propanediol, clinical experience 1513
oocytes, nuclear maturity, morphology, FSH HP, HMG 2387
polyvinylpyrrolidone, potential toxicity, letters 2332
pregnancy outcomes, multiple pregnancies, genetic diseases 1113
pregnancy prediction, endometrium, thickness, ultrasonography 1538
prospective follow-up study, 423 children, congenital malformations, growth parameters 1558
rectal probe electroejaculation, live birth, case report 1247
safety, early pregnancy data, IVF comparison 440
Sertoli-cell-only syndrome, diagnosis, letters 229
size of clinic, success rates 2127
sperm-derived structures, chromosomes, cytoskeleton, pronucleus, rhesus monkey 1703
spermatid conception, biological concerns, genetics, clinical approaches 1371
spermatids, blastocyst formation, cow 824
spermatozoa, chromatin anomalies, decondensation 837
spermatozoa, morphology, 'strict criteria', outcomes 1019
spermatozoa, morphology, chromatin condensation, pregnancy rates 2468
spermatozoa, testicular biopsy, cryopreservation, enzymatic preparation 752
technique, sperm immobilization, rupture of oolemma 540
testicular biopsy, azoospermia, non-obstructive, FSH 2176
testicular biopsy, sperm recovery techniques, letter 1358
testicular biopsy, spermatozoa, cryopreservation, pregnancies, clinical results 1309
testicular biopsy, spermatozoa, cryopreservation, pregnancy, case report 1306
testicular cancer, cryopreservation, semen, pregnancy, case report 2645
testicular sperm extraction, cryopreservation, spermatozoa, motility changes 2474
testicular sperm extraction, frozen–thawed biopsy, pregnancy, case report 2472
testicular sperm extraction, microepididymal sperm aspiration, vas deferens, congenital bilateral absence, outcomes 2151
testicular sperm extraction, testicular histology, outcomes, correlation, letters 2567
testicular spermatozoa, in-vitro maturation, letter 231
testicular spermatozoa, testicular histology, outcome, Sertoli-cell-only syndrome 127
zona pellucida, scanning electron microscopy 2693
Icterus
ovarian hyperstimulation syndrome, hepatotoxicity, case report 2441
IGFBP-1
frozen embryo transfer, placental protein 14, relaxin 88
Immunobead binding test
semen, antisperm antibodies, IVF, fertilization rates 1418
Immunoglobulins
IgG, IgA, ELISA, adhesions, adnexa, *Chlamydia trachomatis* 2418
premature ovarian failure, steroidogenesis 1871
Immunological infertility
ovarian antibodies, thyroid antibodies, IVF 1627
steroids, prednisolone, letters 1585
TNFα, sex steroids, follicular fluid 265
Immunology
assisted reproductive techniques, potential health hazards 701
autoimmunity, antiphospholipid antibodies, anticardiolipin antibodies, letters 1138
implantation, evolution 283
pregnancy, IVF, sIL-2 receptor, intercellular adhesion molecule-1, outcome 2412

salpingitis, *Chlamydia trachomatis*, heat shock proteins, humoral response 1352
Immunosuppression
feto-embryonic defence system, glycodelin, selectin 467
progesterone, mechanism, female infertility 980
Immunotherapy
health insurance, USA 72
unexplained recurrent abortion, intravenous immunoglobulin treatment, review 711
Implantation
anticardiolipin antibodies, spontaneous abortion, mouse 2408
blastocysts, trophectoderm projections, time-lapse videomicrography, bovine/equine/human 2739
cryopreserved embryos, hydrosalpinx 1013
delayed implantation (?), IVF–ET, prolonged gestation, case report 651
differential implantation rates, sex ratio 8
endometrium, luteal phase, RU 486, morphometric analysis, histochemistry, monkey 2026
endometrium, proliferation, RU 486, daily low dose, controlled trial 2518
hormone replacement therapy, endometrium, growth profiles, endometrial thickness, menstrual cycle 2724
immunology, evolution 283
IVF, ICSI, comparison, teratozoospermia 1086
IVF, sperm–oocyte interaction, short exposure time, improved implantation rates, letters 1809
IVF, women patients, antiphospholipid antibodies, intrauterine growth retardation, anticardiolipin antibodies 1185
IVF–ET, sperm–oocyte interaction, reduced exposure time, improved implantation rate, reactive oxygen species 166
platelet activating factor, IVF, mouse 2746
prediction, ICSI, maternal age, case-controlled study 1324
spontaneous abortion, antiphospholipid antibodies, anticardiolipin antibodies, lupus anticoagulant 2310
zona pellucida, photoablation, UV laser, variable sperm concentration, fertilization, mouse 1273
In-situ hybridization
sex chromosomes, spermatozoa, XYY males, XXY males 1638
Indomethacin
uterine artery, endothelium, pregnancy, prostaglandin $F_{2\alpha}$, guinea-pig 2041
uterine artery, endothelium, vascular smooth muscle, prostaglandin $F_{2\alpha}$ 1998
Infection
abortion, first trimester, infrequent cause 2058
Infertile population
background pregnancy rates 1011
Infertility
Chlamydia trachomatis, antisperm antibodies, heterosexual transmission 1635
ESHRE Capri Workshop, prevalence, diagnosis, treatment, guidelines 1775
female infertility, aetiology of infertility, IVF–ET, cumulative pregnancy rates, age 425
female infertility, *Chlamydia trachomatis*, heat shock proteins, humoral response, salpingitis 1352
female infertility, clomiphene citrate, endometrium, morphometry 844
female infertility, endometriosis, laparoscopy, pain, oral contraception 387
female infertility, immunosuppression, progesterone, mechanism 980
female infertility, obesity, weight loss, hormonal profile, insulin 1884
female infertility, premature ovarian failure, steroidogenesis, immunoglobulins 1871
female infertility, proximal tubal occlusion, diagnosis, treatment, debate 1823
female infertility, rhesus disease, intrauterine transfusion, adhesions, peritoneum, case report 2134
female infertility, sperm transport, endometriosis, uterus, hyperperistalsis, dysperistalsis 1542
female infertility, tubal damage grade, IVF, prognosis 2438
female infertility, tubal patency test, hysterosalpingo-contrast sonography, selective tubal catheterization, evaluation 1423
female infertility, uterine artery, blood flow impedance, electro-acupuncture, clinical outcomes 1314
immunological infertility, follicular fluid, TNFα, sex steroids 265
infertile population, background pregnancy rates 1011
investigation, sperm quality, Acridine Orange test, clinical usefulness 784
Kartagener's syndrome, pregnancy, three consecutive pregnancies, letter 683
lactation, prolactin, 24 hour pattern, female fertility resumption 950
male infertility, andrology, need for complete investigation, letter 2807
male infertility, chromosomal abnormalities, karyotyping, diagnostic value 2604
male infertility, chromosome abnormalities, ICSI 330
male infertility, classification, acrosome reaction, mannose ligands, cytoskeletal antibodies, sperm–zona binding 1905
male infertility, cystic fibrosis, CFTR mutation frequency, reduced sperm quality 513
male infertility, ESHRE Andrology Special Interest Group, workshop 1463
male infertility, ICSI, genetic diseases, risk, debate 2347
male infertility, seminal plasma, inhibits brain NO synthase activity 561
male infertility, seminal plasma, superoxide dismutase, xanthine oxidase, spermatozoa, motility, morphology 1223
male infertility, seminal volume, sperm number, trends, subfertility clinics, Athens 1977–1993 1936
male infertility, sperm count decline, world population, statistical modelling, pollution, diet 2635
male infertility, spermatogenesis, soluble transferrin receptors, semen 761
male infertility, spermatozoa, morphology, clinical significance, sperm–cervical mucus penetration test, pregnancy rates 139
male infertility parameters, semen, *Chlamydia trachomatis*, antibodies 1408
parasites, follicular fluid, IVF–ET, case report 531
Inhibin
α-inhibin, luteal phase deficiency, progesterone, endometrium 2591
circannual rhythm, men 248
pregnancy, extra-embryonic coelomic fluid, amniotic fluid, ELISA 2772
secretory patterns, urinary/recombinant FSH 962
Insemination
timing, sex ratio, letters 1812
Institutional review board
donor oocytes, legislation, ethics 1595
Insulin
adipose tissue, menstrual cycle 968
diabetes, polycystic ovary syndrome, obesity, pregnancy 2382
female infertility, obesity, weight loss, hormonal profile 1884
hyperinsulinaemia, premenopausal women, polycystic ovary syndrome, acarbose, testosterone 2377
insulin resistance, blood pressure, polycystic ovary syndrome 23
polycystic ovary syndrome, aetiology, plasma lipids, androgens 1848
polycystic ovary syndrome, IGF-I, IGFBP-1, HMG 716
polycystic ovary syndrome, metabolic syndrome, uric acid, obesity, diabetes 2405
Insulin-like growth factors
IGF-I, granulosa cells, oxytocin 152
IGF-I, IGFBP-1, HMG, polycystic ovary syndrome 716
IGF-I, IGFBP-3, IVF, ovarian responsiveness 2208
IGF-I, ovary, granulosa cells, steroidogenesis, growth hormone releasing hormone, FSH, rat 50
IGF-I, spermatozoa, maturation 2454
IGFBP, peritoneal fluid, endometriosis, immunoassay 1741
IGFBP-1, frozen embryo transfer, placental protein 14, relaxin 88
IGFBPs, embryos, co-culture, Vero cells, oviductal cells, endometrial cells mouse 1281
Interceed
adhesions, electrosurgery, laparoscopy, polycystic ovary syndrome, controlled study 992
adhesions, ovarian cystectomy, laparoscopy 579
Intercellular adhesion molecule-1
endometrium, stromal cells, endometriosis 1190
pregnancy, IVF, outcome 2412
Interferon γ
endometriosis, IL-6 2269
peritoneal fluid, endometriosis 2736
Interleukins
endometriosis, IL-6, IL-1β, tumour necrosis factor-α, interferon γ, progesterone, oestradiol 2269
IL-1, endometrium, epithelium, stroma, *in vitro*, TNFα production 1318
IL-1, IL-6, IL-8, plasma concentrations, ovarian hyperstimulation syndrome, significant correlation 1381
IL-1 receptor antagonist, IL-6, pre-ovulatory serum, ovarian hyperstimulation syndrome, predictive failure 1377
IL-4, IL-6, peritoneal fluid, endometriosis, pain 380

IL-6 production, uterine artery, pregnancy 1337
IL-8, leukocytes, decidua, progesterone 2257
IL-8, IL-1β, cervical ripening, rabbit 1099
sIL-2 receptor, pregnancy, IVF, outcome 2412
Th2 cells, endometrium, menstrual cycle, pregnancy, immunohistochemistry 1747
Internal jugular vein thrombosis
ovarian hyperstimulation syndrome, activated protein C resistance, case report 280
Interpregnancy interval
sex ratio, seasonal variation, maternal age 7
Intrauterine contraceptive device
mechanism of action, endometrium, biochemical deficiency, placental protein 14 1220
levonorgestrel, abnormal uterine bleeding, endometrium, lymphomyeloid cells 1438
Intrauterine growth retardation
antiphospholipid antibodies, IVF, women patients, anticardiolipin antibodies 1185
Intrauterine insemination
age factors, sperm quality, sperm count, life-table analysis 732
endometriosis, ovulation induction, GnRH agonist, ultralong protocol 398
Fallopian tube, sperm perfusion, cervical clamp double nut bivalve speculum, prospective randomized comparison 2618
FSH, basal concentrations, maternal age, ovulation induction, no. of cycles, pregnancy prediction 1214
ovulation, dominant follicle, contralateral selection, outcome 1958
ovulation induction, women ⩾40 years old, pregnancy rates, maternal age 1109
prognostic indicators, statistical model 1892
semen, preparation, pentoxifylline, effectiveness 1236
seminal fluid, presence/absence, ovulation induction, pregnancy rates 1008
Intrauterine transfusion
haemolytic disease, female infertility, adhesions, peritoneum, case report 2134
Intravaginal culture
oxygen tension, pH, IVF 1293
IVF
antisperm antibodies, hemizona assay, zona pellucida penetration assay, mouse/human 2595
assisted hatching, laser zona thinning, pregnancy rates 590
assisted hatching, non-contact UV laser, outcome 2488
asthenozoospermia, spermatozoa, morphology, strict criteria, cut-off evaluation 2155
bicornuate uterus, twin pregnancy in separate horns, case report 2316
blastocyst, selection criterion, glycolysis, mouse 1975
blastocysts, quality assessment, pregnancy-specific β-1 glycoprotein (SP1) 1038
burden of treatments, pregnancy, delivery, psychological evaluation, gender differences 95
children, child development, family functioning, European study 2324
children, development, behaviour, long-term outcome 2052
cumulative pregnancy rate, accuracy of estimations 660
cumulative pregnancy rates, age, aetiology of infertility 425
diethylstilboestrol, endometrium, ultrasonography, echo pattern, outcome prediction 2719
donor oocytes, cryopreservation, ectopic pregnancy, spontaneous resolution, HCG, case report 2785
donor oocytes, embryo transfer on day 7 of luteal phase, spontaneous ovulation, twin pregnancy, case report 893
ectopic pregnancy, delayed implantation, HCG, subunits 2750
embryo transfer, number of replacements, statistical implications 10, 229
embryo transfer, performed by nursing staff, pregnancy rates 105
embryo transfer, techniques, 'mock' transfer, letters 458
embryo transfer, tubal transfer, GIFT, ZIFT, clinical role, debate 1815
embryo transfer catheter, microbial contamination, endocervical organisms, pregnancy rates 1687
'failed fertilized' oocytes, cytogenetic analysis, FISH 2230
fertilization failure, ICSI, efficacy, oocyte quality 1963
follicular fluid, cells, morphometry, DNA cytometry, maternal age, outcomes 2200
follicular fluid, parasites, case report 531
fresh vs frozen–thawed embryos, HMG, buserelin, clomiphene citrate 2097
frozen embryo transfer, IGFBP-1, placental protein 14, relaxin 88
GnRH agonist, buserelin, ovarian reserve, FSH, outcomes 1393
GnRH agonist, low dose, poor responders, FSH 1169
GnRH agonist, progestogen pretreatment, flare-up, outcome 1859
GnRH analogue, HMG, FSH-HP, outcomes 1209
high insemination concentrations, benefits for poor responders 1985
Human Fertilisation and Embryology Authority, 'Patients guide to clinics', debate 1835
Human Fertilisation and Embryology Authority, 'Patients' Guide', clinical practice, international viewpoints, debate 1363
hydrosalpinx, outcomes, *Chlamydia trachomatis* 526
hydrosalpinx, salpingectomy, debate 2079
hydrosalpinx, salpingectomy, improved pregnancy rates 523
hydrosalpinx, salpingectomy, pregnancy rates, letters 2068
ICSI, pronuclear oocytes, cryopreservation, pregnancy rates compared 604
IGF-I, IGFBP-3, ovarian responsiveness 2208
implantation, ICSI, comparison, teratozoospermia 1086
intravaginal culture, oxygen tension, pH 1293
luteal phase, uterine blood flow, transvaginal colour Doppler, clinical value, debate 1589
luteal phase support, progesterone therapy, Crinone vs Utrogestan, multicentre randomized trial 2085
luteal support, progesterone vs progesterone + HCG, GnRHa/HMG induction, clinical trial 1602
multiple-failure patients, co-culture, assisted hatching, implantation rates 2429
natural cycle, embryo cryopreservation, breast carcinoma, chemotherapy, case report 197
oocyte retrieval, HCG, follicles, blood flow 2512
oocytes, chromosomes, triploidy, gestational trophoblastic disease, case report 1529
oocytes, cryopreservation, activation 1990
outcome prediction, oestradiol, progesterone, luteal phase, tubal infertility 2396
ovarian hyperstimulation syndrome, activated protein C resistance, internal jugular vein thrombosis, case report 280
ovarian hyperstimulation syndrome, heterotopic pregnancy, case report 68
ovarian hyperstimulation syndrome, prevention, GnRH analogue, HCG, case–control study 1399
ovarian stimulation, FSH, HMG, comparison, oestradiol 474
ovulation, dominant follicle, contralateral selection, outcome 1958
ovulation induction, dexamethasone, pilot study 253
ovulation induction, endometrium, glandular volume 376
ovulation induction, glucocorticoids, dexamethasone, randomized trial, tubal infertility 1606
ovulation induction, GnRH agonist, pFSH/FSH HP, HMG, comparison of regimens 2400
ovulation induction, HCG, mid-luteal addition, corpus luteum, progesterone 1552
ovulation induction, relaxin, follicle number, pregnancy 2036
ovulation induction, rhFSH, rhLH, embryo development, rhesus monkey 608
patients' stress, daily symptom checklist, psychological evaluation 903
pituitary desensitization, GnRH agonist, ovarian responsiveness, FSH:LH ratio 1615
platelet activating factor, embryo transfer, implantation, mouse 2746
polyploidy, failed fertilization, review of 392 cycles, associated factors, patient's age, gamete quality 614
polyspermy, zygotes, pronucleus removal, births, mice 341
preclinical abortions, septate uterus, hysteroscopy 730
pregnancy, sIL-2 receptor, intercellular adhesion molecule-1, outcome 2412
pregnancy prediction, endometrium, thickness, ultrasonography 1538
preimplantation embryos, antibiotic-free medium, improved cleavage rate 1520
preimplantation embryos, co-culture, alternative systems, evaluation 1525
preimplantation embryos, cryopreservation, 82 children, follow-up, developmental performance 1565
preimplantation embryos, protein-free culture medium, blastocyst, primate 1690
prognostic models, ongoing pregnancies, validation 2298
prolonged gestation, delayed implantation (?), case report 651
proximal tubal occlusion, microsurgery, birth rate 2613
relaxin, pregnancy, plasma osmolality 1105
salpingostomy, surgical experience, live birth rates 77

semen, antisperm antibodies, indirect immunobead test, fertilization rates 1418
semen, bacterial infection, pregnancy rates 2789
semen, bacteriology, antibiotics, asymptomatic males, unnecessary treatment 1227
single oocyte retrieval, quadruplets, donor oocytes, astonishing fertility, case report 2136
size of clinic, success rates 2127
sperm–oocyte interaction, long exposure time, high sperm concentration, detrimental effect 2507
sperm–oocyte interaction, reduced exposure time, improved implantation rate, reactive oxygen species 166
sperm–oocyte interaction, short exposure time, improved implantation rates, letters 1809
sperm function tests, delay between testing and IVF, reactive oxygen species 1030
spermatozoa, intracellular free Ca^{2+}, acrosome reaction, progesterone, IVF, predictive assays 1661
spermatozoa, morphology, strict criteria, prediction of outcome 1445
spontaneous vs stimulated cycles, uterine artery, blood flow, ultrasonography 364
stress, psychological evaluation, questionnaire, cortisol, prolactin 274
success rates, professional dishonesty 695
testicular sperm extraction, microepididymal sperm aspiration, vas deferens, congenital bilateral absence, outcomes 2151
transvaginal oocyte retrieval, dermoid cyst, acute abdomen, case report 1897
tubal damage grade, prognosis 2438
twins of different races, donor spermatozoa, ethics, letter 915
'undocumented' embryos, detection of ploidy, FISH 2502
unexplained recurrent abortion, pilot study 1579
uterine artery, transvaginal colour Doppler, clinical value, letters 2333
uterine rupture, case reports 1120
uterus, rupture, hysteroscopy, synechiae, tuberculosis, case report 291
vaginoplasty, live birth, case report 1654
women patients, antiphospholipid antibodies, intrauterine growth retardation, anticardiolipin antibodies 1185

Kallikrein
spermatozoa, Percoll preparation, letter 457
Kallman's syndrome
hypogonadotrophic hypogonadism, ovulation induction, FSH, LH, pregnancy, case report 70
Kartagener's syndrome
immotile spermatozoa, fertilizing ability, ICSI, subzonal insemination 2180
three consecutive pregnancies, letter 683
Karyotyping
ectopic pregnancy, chorionic villi 2769
ICSI, chromosomal abnormalities, fertilization rate 2609
male infertility, chromosomal abnormalities, diagnostic value 2604
Ki-67
placenta, decidua, co-culture, morphological interactions, first trimester 444
Kidney
sodium, diet, renin, prorenin, angiotensin, ovary follicular fluid 956
Klinefelter's syndrome
47,XXY males, testicular sperm extraction, ICSI, preimplantation diagnosis, FISH 1650
47,XXY males, testicular sperm extraction, ICSI 1644
Klippel–Trénaunay–Weber syndrome
fetal growth restriction, case report 2544
Kobe earthquake
stress, spermatozoa, concentration, motility 1244

Lactation
prolactin, 24 hour pattern, female fertility resumption 950
Lactogen
placenta, ritodrine, oxytocin, *in vitro*/*in vivo* influence 664
Laparoscopy
adnexal torsion, efficacy 998
airlift gasless laparoscopy, leiomyomata, myomectomy, preliminary report 1427
ectopic pregnancy, surgery, methotrexate, cost analysis 2762
endometriosis, female infertility, pain, oral contraception 387
endometriosis, uterosacral ligaments, efficacy 868
hysterectomy, complications, risk, retrospective study 2422
hysterectomy, nulliparous patients, surgical results 2122
hysterosalpingography, tubal pathology, diagnosis, accuracy, reproducibility 1204
leiomyomata, myomectomy, debate 1837
myomectomy, large intramural myomas, fertility outcomes 518
neovaginoplasty, clinical results 200
ovarian cystectomy, adhesions, Interceed 579
ovarian cysts, laparoscopy vs laparotomy, letters 2069
ovarian cysts, laparotomy, comparative costs, Italy 287
ovary, laparoscopic unwinding, second trimester, ovarian hyperstimulation, letters 460
polycystic ovary syndrome, electrosurgery, adhesions, Interceed, controlled study 992
primary abdominal pregnancy, surgery, case report 2546
salpingectomy, ectopic pregnancy, subsequent fertility 1199
uterus, myomectomy, clinical practice, debate 933
Laparotomy
ovarian cysts, laparoscopy, comparative costs, Italy 287
peritoneum, adhesions, fibrin glue, rat 1877
Lasers
CO_2 laser, ovarian endometriomas, GnRH agonist, histology, pregnancy rates 641
CO_2 laser, Ultrapulse 500/500L, power density, tissue effects, rat 677
CO_2 laser excision, deep endometriosis, complications, LHRH, danatrol 2263
near-infrared laser tweezers, ultraviolet exposure, spermatozoa, micromanipulation 2162
non-contact UV laser, assisted hatching, zona drilling, IVF, outcome 2488
transvaginal interstitial laser treatment (TILT), ultrasonography, anovulation, clomiphene resistance, feasibility study, cow 808
zona pellucida, photoablation, infrared diode laser, pregnancy rates, mouse 1043
zona pellucida, photoablation, UV laser, variable sperm concentration, fertilization, implantation, mouse 1273
Legislation
assisted reproductive techniques, ethics, Asia 908
assisted reproductive techniques, French law, review/opinion 1843
assisted reproductive techniques, sex preselection, India, editorial 685
cryopreservation, embryos, Denmark, debate 703
cryopreservation, ovary, cancer, counselling, case report 2215
Human Fertilisation and Embryology Authority, 'Patients' Guide', clinical practice, international viewpoints, debate 1363
Human Fertilisation and Embryology Authority, donor insemination, IVF, 'Patients guide to clinics' 1835
Leiomyomata
myomectomy, laparoscopy, airlift gasless laparoscopy, preliminary report 1427
myomectomy, laparoscopy, debate 1837
uterus, cultured cell explants, microscopy, time-lapse cinematography 1724
Leukaemia inhibitory factor
IVF, serum-free medium, blastocyst formation rates 191
Leukocytes
decidua, progesterone, IL-8 2257
endometriosis, peritoneal fluid, peripheral circulation, menstrual cycle, FACS analysis, baboon 1736
endometrium, necrosis, immunostaining, progestogen, high doses 1713
natural killer ($CD57^+$) cells, endometrium, immunohistochemistry, spontaneous abortion 1569
ovary, populations, localization, menstrual cycle, menopause 790
uterus, mucosa, oestrogen receptor, progesterone receptor, immunohistology 1079
Leuprolide acetate
GnRH agonist, 3-monthly vs monthly depot, endometriosis, pelvic pain 2732
norethindrone acetate, ovulation induction, cyst formation reduced, GnRH agonist 1035
Levonorgestrel
endometrium, progesterone receptor, menstrual cycle 2629
intrauterine device, abnormal uterine bleeding, endometrium, lymphomyeloid cells 1438
Norplant, endometrium, basement membrane, microvasculature, immunohistochemistry 2142
post-coital contraception, Yuzpe method, norgestrel, side-effects 2449
LH
circannual rhythm, men 248

FSH:LH ratio, pituitary desensitization, GnRH agonist, ovarian responsiveness 1615
GnRH agonist, triptorelin, dose assessment, double-blind randomized trial 55
gonadotrophin surge-inhibiting factor, follicular fluid, detection 490
isolated LH hypergonadotrophinaemia, case report 64
ovulation induction, FSH, hypogonadotrophic hypogonadism, Kallman's syndrome, pregnancy, case report 70
positive urinary LH self-test, uterus, vascular/morphological changes, ultrasonography 369
purified urinary FSH, hormone profile, administration route 1854
receptor, corpus luteum, pregnancy, HCG 2291
rhLH, ovulation induction, IVF–ET, embryo development, rhesus monkey 608
LHRH
deep endometriosis, CO_2 laser excision, complications, danatrol 2263
Lipid peroxide
endometrium, menstrual cycle, pregnancy 1073
Lipids
polycystic ovary syndrome, aetiology, plasma lipids, androgens, insulin 1848
Liver
fetal liver length, ultrasonography, diagnostic applications 2758
liver function tests, ovarian hyperstimulation syndrome, hepatotoxicity, case report 588
Lupus anticoagulant
spontaneous abortion, implantation 2310
Luteal phase
dydrogesterone, ovulation induction, menstruation, irregular/infrequent, tamoxifen, dydrogesterone compliance 1435
luteal phase support, IVF, progesterone therapy, Crinone vs Utrogestan, multicentre randomized trial 2085
progesterone, oestradiol, IVF, outcome prediction, tubal infertility 2396
RU 486, endometrium, morphometric analysis, histochemistry, monkey 2026
Luteinized unruptured follicle syndrome
mechanism, ovulation induction, clomiphene/HMG/HCG, ultrasonography 583
Lymphocytes
ovary, populations, localization, menstrual cycle, menopause 790
sIL-2 receptor, intercellular adhesion molecule-1, IVF, pregnancy, outcome 2412
Th2 cells, interleukins, endometrium, menstrual cycle, pregnancy, immunohistochemistry 1747
Lymphoma
Hodgkin's disease, chemotherapy, premature ovarian failure, GnRH agonist, co-treatment, clinical trial 1620
ovary, cryopreservation, transplantation, cancer transmission, mice 1668
Lymphomyeloid cells
endometrium, levonorgestrel, intrauterine device, abnormal uterine bleeding 1438

α_2-Macroglobulin
spermatozoa, motility, vasectomy 2454
Macrophages
decidua, third trimester, magnetic separation 451
Magnetic resonance imaging
prognostic application, endometriosis, GnRH analogue 1083
relaxation time, endometrioma, cyst fluid characteristics, iron concentration 857
Mannose ligands
sperm–zona binding, male infertility, classification, acrosome reaction, 1905
Mannosylated BSA
acrosome reaction, detection method comparison, chlortetracycline, quinacrine 741
Mansonella perstans
follicular fluid, IVF–ET, case report 531
Masturbation
semen quality, sexual arousal 147
Maternal–fetal interaction
autoimmunity, anticardiolipin antibodies, implantation, spontaneous abortion, mouse 2408
Maternal age
advanced reproductive age ⩾ 45 years, donor oocytes, obstetric outcomes, clinical study 2540
aneuploidy, oocytes, meiotic spindle assembly, confocal microscopy 2217
endometrium, post-menopausal women, morphology, function tests 2246
follicle numbers, menopause, stochastic model 1484
FSH, basal concentrations, ovulation induction, intrauterine insemination, no. of cycles, pregnancy prediction 1214
ICSI, implantation, prediction, case-controlled study 1324
IVF, follicular fluid, cells, morphometry, DNA cytometry, outcomes 2200
ovulation induction, intrauterine insemination, women ⩾40 years old, pregnancy rates 1109
preimplantation diagnosis, genetic diseases, ethics, debate 2349
preimplantation diagnosis, pros and cons, older women, genetic diseases, debate 2071
sex ratio, interpregnancy interval, seasonal variation 7
Maternal dominance hypothesis
sex determination, sex ratio, psychological evaluation 2371
Maternal hormones
sex ratio, letter 1139
Menopausal women
progesterone, Crinone®, vaginal administration, endometrium, immunohistochemistry, morphometry 357
Menopause
endometrium, atrophy, vascular density, danazol, GnRH agonist 2009
European Menopause Society conference, hormone replacement therapy, osteoporosis, cardiovascular disease, cancer 975
hormone replacement therapy, cycle variability, bleeding pattern 503
maternal age, follicle numbers, stochastic model 1484
perimenopause, endometrium, arterioles, α-actin, menorrhagia 204
white blood cells, ovary, populations, localization, menstrual cycle 790
Menorrhagia
endometrial ablation, endothelial cell proliferation, angiogenesis 1067
endometrium, vascular smooth muscle, oestrogen receptor, progesterone receptor, immunohistochemistry 2003
perimenopause, endometrium, arterioles, α-actin 204
Menotrophins
purified urinary FSH, hormone profile, administration route 1854
Menstrual cycle
abnormal uterine bleeding, endometrium, lymphomyeloid cells, levonorgestrel, intrauterine device 1438
anovulation, cycle characteristics, ovulation induction, multiple pregnancies, risk assessment 429
conception, behavioural rhythm, pregnancy outcome 2276
endometriosis, leukocytes, peritoneal fluid, peripheral circulation, FACS analysis, baboon 1736
endometrium, atrophy, vascular density, danazol, GnRH agonist 2009
endometrium, glandular volume, ovulation induction, IVF–ET, hormone replacement therapy 376
endometrium, immunostaining, cathepsin D, progesterone 392
endometrium, lipid peroxide, superoxide dismutase, pregnancy 1073
endometrium, stromal cells, fibroblasts, granulocytes 850
endometrium, Th2 cells, interleukins, pregnancy, immunohistochemistry 1747
follicular phase, endometrium, histology, morphometry, ultrasonography, female infertility 1719
follicular/luteal phases, hypertonic saline infusion, vasopressin, atrial natriuretic hormone 2392
FSH, oestradiol, ovarian reserve, variability 486
glucose metabolism, brain, positron emission tomography, progesterone 2799
heat shock proteins, endometrium, stress, immunohistochemistry 633
hormone replacement therapy, endometrium, growth profiles, endometrial thickness, implantation 2724
insulin, adipose tissue 968
intraovarian blood flow, normal vs stimulated, ultrasonography 2481
luteal phase, endometrium, extracellular matrix proteins, immunohistochemistry 2713
luteal phase deficiency, α-inhibin, progesterone, endometrium 2591
oligomenorrhoea, spontaneous abortion, chromosome abnormalities 2304
ovulation, symmetry, soft-tissue measurements 2477
progesterone receptor, endometrium, Norplant 2629
vascular endothelial growth factor, peritoneal fluid, endometriosis, cyclic variation 220
white blood cells, ovary, populations, localization 790
Menstruation
irregular/infrequent, ovulation induction, clomiphene citrate, tamoxifen, dydrogesterone, luteal phase compliance 1435
retrograde menstruation, endometriosis, peritoneal fluid, laparoscopy, baboons 2022
Methotrexate
ectopic pregnancy, laparoscopy, surgery, cost analysis 2762

ectopic pregnancy, transvaginal intratubal injection, subsequent fertility, 100 cases 420
Microepididymal sperm aspiration
cryopreservation, ICSI, pregnancy rates 133
ICSI, percutaneous epididymal sperm aspiration, pros/cons, letters 680
ICSI, subzonal insemination, IVF, vas deferens, congenital bilateral absence, outcomes 2151
Micromanipulation
spermatozoa, near-infrared laser tweezers, ultraviolet exposure 2162
Mifepristone—see RU 486
Mitosis
embryos, spermatozoa, centriole, inheritance, ultrastructure 345
Mucocele
appendiceal uterine transplantation, case report 1433
Müllerian anomalies
bicervical non-septate uterus, longitudinal vaginal septum, case report 218
bicornuate uterus, twin pregnancy in separate horns, IVF, case report 2316
double cervix, vaginal septum, normal uterus, case report 1350
Müllerian inhibiting substance
seminal plasma, spermatozoa, motility 2165
Multinucleated blastomeres
chromosomal abnormalities, FISH 1492
Multiple pregnancies
ICSI, pregnancy outcomes, genetic diseases 1113
ovulation induction, cycle characteristics, risk assessment 429
pregnancy-associated placental protein A, pregnancy-specific β-1-glycoprotein, fetal reduction 900
risk factors, coffee, alcohol, smoking 2306
twins, spontaneous vs multifetal reduction, pregnancy outcomes 1334
Myomectomy
laparoscopy, uterus, large intramural myomas, fertility outcomes 518
uterus, laparoscopy, clinical practice, debate 933
Myometrium
contractility, oxytocin, protein kinase C, parturition, phospholipase D 2285

Natural killer ($CD57^+$) cells
endometrium, immunohistochemistry, spontaneous abortion 1569
Neovaginoplasty
laparoscopy, clinical results 200
Nitric oxide
follicles, atresia, apoptosis, steroidogenesis 2484
follicles, oestradiol, ovarian blood flow 1947
nitric oxide synthase, cellular localization, ovary, follicles, rat 2667
nitric oxide synthase, seminal plasma, inhibits brain NO synthase activity, male infertility 561
NO synthase inhibition, progesterone, blood pressure, pregnancy, rat 2777
pre-eclampsia, calcitonin gene-related peptide, hypertension, fetal mortality, rates 895
uterus, cervix, pregnancy, parturition, rat 1755
Norethindrone acetate
ovulation induction, cyst formation reduced, GnRH agonist 1035
Norgestrel
post-coital contraception, Yuzpe method, levonorgestrel, side-effects 2449
Norplant
anovulation, dominant follicle, functional life span 114
contraception, endometrium, basement membrane, microvasculature, immunohistochemistry 2142
endometrium, progesterone receptor, menstrual cycle 2629
Nuchal thickness
fetus, heart rate, umbilico-placental blood flow, first trimester, chromosome abnormalities, ultrasonography 435
Nuclear channel system
endometrium, glandular epithelium, nuclear morphometry, female infertility 2251
Nursing staff
embryo transfer, performed by nursing staff, pregnancy rates 105

Obesity
diabetes, polycystic ovary syndrome, pregnancy, insulin 2382
female infertility, weight loss, hormonal profile, insulin 1884
polycystic ovary syndrome, metabolic syndrome, uric acid, insulin, diabetes 2405

Oestradiol
donor oocytes, recipient cycle induction, flexible protocol, pregnancy rate 1063
endometriosis, IL-6 2269
GnRH, baseline concentrations, pseudopregnancy, rat 13
granulosa cells, oxytocin 152
IVF–ET, ovarian stimulation, FSH, HMG, comparison 474
luteal phase, IVF, outcome prediction, tubal infertility 2396
menstrual cycle, ovarian reserve, variability 486
nitric oxide, follicles, ovarian blood flow 1947
oestradiol administration, donor oocytes, effects, letter 2564
ovarian hyperstimulation syndrome, 17α-hydrolase 17,20 lyase, deficiency, case report 2119
saliva, conception vs non-conception cycles, follicular phase, fecundity 2090
secretion, FSH, granulosa cells, follicle size, TNFα 1256
secretory patterns, urinary/recombinant FSH 962
steroidogenesis, corpus luteum, subpopulations 1609
Oestrogen
bestatin, peptidase, FSH, granulosa cells, steroidogenesis, pig 497
ectopic pregnancy, risk factors, hormone concentrations, debate 233
low oestradiol concentrations, ovarian hyperstimulation syndrome, hypogonadotrophic hypogonadism, case report 1177
Oestrogen receptor
endometrium, vascular smooth muscle, menorrhagia, immunohistochemistry 2003
progesterone receptor, RU 486 (mifepristone), ZK 98,299 (onapristone), endometrium, proliferation 1533
trophoblast, first trimester, immunohistochemistry 413
uterus, mucosa, leukocytes, immunohistology 1079
Oligomenorrhoea
spontaneous abortion, chromosome abnormalities 2304
Onapristone
post-ovulatory administration, endometrial differentiation, contraception 40
Oocytes
aged oocytes, DNA fragmentation, apoptosis, fertilization, mice 1480
aneuploidy, meiotic spindle assembly, maternal age, confocal microscopy 2217
centrifugation, ultrastructure, electron microscopy, bovine 1499
chromosomes, triploidy, IVF, gestational trophoblastic disease, case report 1529
cryopreservation, activation, IVF 1990
cryopreservation, biophysical experiments, monkey 156
cryopreservation, cancer, counselling, legislation, case report 2215
cryopreservation, formaldehyde, non-enzymatic formation, mouse 2681
cryopreservation, propanediol, oocyte donation, ICSI, clinical experience 1513
cryopreservation, slow freezing, in-vitro maturation, mouse 2648
cryopreservation, theoretical modelling, fertilization, development, mouse 1296
donor oocytes, age of donor, oocyte efficacy, retrospective data 820
'failed fertilized' oocytes, ICSI, IVF, cytogenetic analysis, FISH 2230
ICSI, delayed cleavage, letter 1357
injection characteristics, oolemma breakage patterns, ICSI, outcomes 172
maturation *in vitro*, serum-free medium, mouse, letter 1139
maturation *in-vitro*, culture media, mouse, letter 2336
nuclear maturity, morphology, ICSI, FSH HP, HMG 2387
oocyte maturation, sex ratio, follicular phase 2
oocyte morphology, ICSI, fertilization rate 595
oocyte quality, IVF, fertilization failure, ICSI, efficacy 1963
oocyte recovery, follicular blood flow, ultrasonography, embryo quality 109
preantral follicles, maturation *in vitro*, culture system, fertilization 2656
pronuclear oocytes, cryopreservation, ICSI, IVF–ET, pregnancy rates compared 604
zona pellucida, photoablation, UV laser, variable sperm concentration, fertilization, implantation, mouse 1273
Osseus metaplasia
endometrium, hysteroscopy, case report 2537
Osteoporosis
hormone replacement therapy, European Menopause Society conference 975
Ovarian antibodies
reproductive failure, immunological infertility, IVF 1627
Ovarian artery
tubal ligation, Doppler blood flow 1195

Ovarian cysts
laparoscopy vs laparotomy, letters 2069
Ovarian hyperstimulation syndrome
activated protein C resistance, internal jugular vein thrombosis, case report 280
clomiphene citrate, heterotopic pregnancy, salpingectomy, case report 1583
GnRH analogue, debate 1143
hepatotoxicity, case report 588
hepatotoxicity, icterus, case report 2441
heterotopic pregnancy, IVF–ET, case report 68
17α-hydrolase 17,20 lyase, deficiency, oestradiol, case report 2119
interleukins, IL-1, IL-6, IL-8, TNFα, plasma concentrations, significant correlation 1381
low oestradiol concentrations, hypogonadotrophic hypogonadism, case report 1177
ovarian tumour symptoms, spontaneous pregnancy, case report 720
pre-ovulatory serum, IL-6, IL-1 receptor antagonist, TNFα, predictive failure 1377
prediction, baseline ovarian volume 1597
prevention, GnRH analogue, HCG, IVF, case–control study 1399
prophylactic i.v. albumin, letter 460
spontaneous pregnancy, case report 1600
thromboembolism, internal jugular vein, letters 1358
thromboembolism, subclavian aorta, case report 1173
Ovarian stimulation—see ovulation induction
Ovary
cancer, cryopreservation, transplantation, cancer transmission, mice 1668
cancer, ovarian cysts, laparoscopy vs laparotomy, letters 2069
cryopreservation, cancer, counselling, legislation, case report 2215
cryopreservation, grafting, cancer, chemotherapy, radiotherapy 1487
cryopreservation, ovarian tissue, dimethylsulphoxide, propanediol 1268
follicle numbers, maternal age, menopause, stochastic model 1484
follicles, nitric oxide, oestradiol, ovarian blood flow 1947
follicular fluid, sodium, diet, renin, prorenin, angiotensin, kidney 956
granulosa cells, extracellular matrix, culture, HCG 336
granulosa cells, follicular fluid, flow cytometry, CD45 2211
granulosa cells, oestradiol, secretion, TNFα, FSH, follicle size 1256
granulosa cells, oxytocin, progesterone, oestradiol, IGF-I, prostaglandin $F_{2\alpha}$, cyclic nucleotides 152
granulosa cells, steroidogenesis, growth hormone releasing hormone, IGF-I, FSH, rat 50
intraovarian blood flow, menstrual cycle, normal vs stimulated, ultrasonography 2481
laparoscopic unwinding, second trimester, ovarian hyperstimulation, letters 460
nitric oxide synthase, cellular localization, rat 2667
ovarian cystectomy, impact on ovulation induction, IVF–ET 81
ovarian cystectomy, laparoscopy, adhesions, Interceed 579
ovarian cysts, laparoscopy, laparotomy, comparative costs, Italy 287
ovarian endometriomas, GnRH agonist, CO_2 laser, histology, pregnancy rates 641
ovarian reserve, FSH, oestradiol, menstrual cycle, variability 486
ovarian reserve, IVF, GnRH agonist, buserelin, FSH, outcomes 1393
ovarian stimulation, FSH, HMG, comparison, oestradiol 474
physiological ovarian cyst, endometriosis, hormonal suppressive therapy, efficacy 874
premature ovarian failure, steroidogenesis, immunoglobulins 1871
progesterone-only contraceptives, desogestrel, ovarian activity, vaginal bleeding patterns 737
relaxin, ovulation induction, IVF, follicle number 2036
steroidogenesis, granulosa cells, FSH, bestatin, peptidase, pig 497
white blood cells, populations, localization, menstrual cycle, menopause 790
Ovulation
dominant follicle, contralateral selection, IUI, IVF, outcome 1958
donor insemination, timing, home testing kit vs laboratory testing, pregnancy rates 1674
follicular growth, cell surface aminopeptidases, bestatin, mouse 1952
platelet activating factor, IVF, mouse 2746
symmetry, soft-tissue measurements, menstrual cycle 2477
Ovulation induction
clinical practice, editorial 917
clomiphene citrate, clinical abortion, spontaneous abortion, comparison 2623
clomiphene/HMG/HCG, luteinized unruptured follicle syndrome, mechanism, ultrasonography 583
cyst formation reduced, norethindrone acetate, leuprolide acetate, GnRH agonist 1035
dexamethasone, pilot study 253
diabetes, clomiphene citrate, efficacy 1403
donor oocytes, FSH-HP, HMG, randomized trial, pregnancy rates 1864
endothelin, follicular fluid, IVF–ET 269
follicular phase, HMG, GnRH antagonist, Cetrorelix 2114
FSH, basal concentrations, maternal age, intrauterine insemination, no. of cycles, pregnancy prediction 1214
FSH, LH, hypogonadotrophic hypogonadism, Kallman's syndrome, pregnancy, case report 70
glucocorticoids, dexamethasone, IVF, randomized trial, tubal infertility 1606
GnRH agonist, low dose, poor responders, FSH, IVF 1169
GnRH agonist, pFSH/FSH HP, HMG, comparison of regimens 2400
GnRH agonist, progestogen pretreatment, flare-up, IVF, outcome 1859
GnRH agonist, ultralong protocol, intrauterine insemination, endometriosis 398
GnRH analogue, ovarian hyperstimulation syndrome, debate 1143
GnRH antagonist, Cetrorelix, HMG, progesterone, serum concentrations 1405
GnRH pulse frequency, hypothalamic amenorrhoea 19
gonadotrophins, decremental dose regimen, FSH, anovulation 478
gonadotrophins, GnRH agonist, corpus luteum, hypogonadotrophic hypogonadism 943
HCG, mid-luteal addition, corpus luteum, progesterone 1552
HMG, allergic reaction, IVF, case report 1632
HMG, buserelin, clomiphene citrate, fresh vs frozen–thawed embryos, IVF 2097
intraovarian blood flow, menstrual cycle, normal vs stimulated, ultrasonography 2481
intrauterine insemination, seminal fluid, presence/absence, pregnancy rates 1008
intrauterine insemination, women ⩾40 years old, pregnancy rates, maternal age 1109
IVF, IGF-I, IGFBP-3, ovarian responsiveness 2208
IVF, relaxin, follicle number, pregnancy 2036
IVF–ET, hormone replacement therapy, endometrium, glandular volume, menstrual cycle 376
IVF–ET, spontaneous vs stimulated cycles, uterine artery, blood flow, ultrasonography 364
low-grade stimulation, feasibility, debate 2579
menstruation, irregular/infrequent, clomiphene citrate, tamoxifen, dydrogesterone, luteal phase compliance 1435
multiple pregnancies, risk assessment, cycle characteristics 429
ovarian cystectomy, impact on ovulation induction, IVF–ET 81
ovarian hyperstimulation syndrome, prevention, GnRH analogue, HCG, IVF, case–control study 1399
polycystic ovary syndrome, FSH, low dose regimens, step up vs step up and step down, clinical trial 2581
purified urinary FSH, hormone profile, administration route, LH, menotrophins 1854
rhFSH, rhLH, IVF–ET, embryo development, rhesus monkey 608
urinary/recombinant FSH, oestradiol, inhibin, secretory patterns 962
Oxygen
oxygen tension, intravaginal culture, pH, IVF 1293
umbilical artery, contraction, endothelin-1 2767
Oxytocin
granulosa cells, progesterone, oestradiol, IGF-I, prostaglandin $F_{2\alpha}$, cyclic nucleotides 152
in vitro/*in vivo* influence, placenta, HCG, lactogen 664
myometrium, contractility, protein kinase C, parturition, phospholipase D 2285

P24 Antigen
HIV, semen analysis, spermiophagy 765
Pain
endometriosis, laparoscopy, female infertility, oral contraception 387
endometriosis, peritoneal fluid, TNFα and β, IL-4, IL-6, platelet-derived growth factor 380
Parasites
follicular fluid, *Mansonella perstans*, schistosomiasis, IVF–ET, case report 531
Parturition
myometrium, contractility, oxytocin, protein kinase C, phospholipase D 2285
nitric oxide, uterus, cervix, rat 1755

Pentoxifylline
semen, preparation, intrauterine insemination, effectiveness 1236
semen, storage, transportation, ambient temperature, citrate–egg yolk buffer, sperm function 2186
sperm–zona binding, effects 814
Percoll
polyvinylpyrrolidone, cryopreservation, embryos, development *in vitro*/*in vivo*, mouse 2697
Percutaneous epididymal sperm aspiration
ICSI, microepididymal sperm aspiration, pros/cons, letters 680
Perimenopause
endometrium, arterioles, α-actin, menorrhagia 204
Peritoneal fluid
CD23, endometriosis, ELISA 2018
endometriosis, antibodies, antigens, Western blot analysis 861
hsp60, interferon γ, endometriosis 2736
IGFBP, endometriosis, immunoassay 1741
leukocytes, endometriosis, menstrual cycle, FACS analysis, baboon 1736
retrograde menstruation, endometriosis, laparoscopy, baboons 2022
TNFα and β, IL-4, IL-6, platelet-derived growth factor, endometriosis, pain 380
vascular endothelial growth factor, endometriosis, cyclic variation 220
Peritoneum
adhesions, fibrin glue, laparotomy, rat 1877
adhesions, infertility, rhesus disease, intrauterine transfusion, case report 2134
Phosphate
preimplantation embryos, second cleavage division *in vitro*, glucose, metabolism, hamster 177
Phospholipase D
myometrium, contractility, oxytocin, protein kinase C, parturition 2285
Photoablation
zona pellucida, infrared diode laser, pregnancy rates, mouse 1043
Photodynamic therapy
endometrium, regeneration model, electron microscopy, rabbit 1992
Pituitary–ovarian dysfunction
endometriosis, unexplained infertility, progestogen, follicular fluid 647
Placenta
cytotrophoblast, cell line established, characterization 1328
decidua, co-culture, morphological interactions, first trimester, E-cadherin, Ki-67 444
first trimester, diazepam, in-vivo transfer 889
lactogen, HCG, oxytocin, ritodrine, *in vitro*/*in vivo* influence 664
vascular endothelial growth factor, tyrosine kinase receptors, flt, KDR, immunohistochemistry 1090
Placenta percreta
IVF, uterine rupture, case reports 1120
Placental protein
frozen embryo transfer, IGFBP-1 88
Placental protein 14
endometrium, epithelium, stroma, *in vitro*, TNFα production 1318
endometrium, intrauterine contraceptive device, mechanism of action, biochemical deficiency 1220
Plasma osmolality
relaxin, pregnancy, donor oocytes, IVF 1105
Platelet activating factor
ovulation, IVF, embryo transfer, implantation, mouse 2746
Platelet-derived growth factor
peritoneal fluid, endometriosis, pain 380
Polar body analysis
preimplantation diagnosis, pros and cons, older women, genetic diseases, debate 2071
Polycystic ovary syndrome
acarbose, testosterone, hyperinsulinaemia, premenopausal women 2377
aetiology, plasma lipids, androgens, insulin 1848
blood pressure, insulin resistance 23
causes, aetiology 465
diabetes, obesity, pregnancy, insulin 2382
diagnosis, colour Doppler imaging, letters 915
follicles, steroidogenesis, cell proliferation, immunohistochemistry 1387
granulosa–luteal cells, follicular fluid, aromatase, progesterone 2107
IGF-I, IGFBP-1, HMG 716
laparoscopy, electrosurgery, adhesions, Interceed, controlled study 992
metabolic syndrome, uric acid, insulin, obesity, diabetes 2405
ovulation induction, FSH, low dose regimens, step up vs step up and step down, clinical trial 2581
pathogenesis, diagnosis, treatment 29
Polymerase chain reaction
fluorescent PCR, prenatal diagnosis, 7–9 weeks gestation, coelocentesis 2548
Polyspermy
IVF, zygotes, pronucleus removal, births, mice 341
Polyvinylpyrrolidone
cryopreservation, embryos, Percoll, development *in vitro*/*in vivo*, mouse 2697
ICSI, bovine zygotes, sham ICSI/control, safety of ICSI procedure, cow 618
Positron emission tomography
glucose metabolism, brain, menstrual cycle, progesterone 2799
Post-coital sperm retrieval
religious acceptance, ethics 245
Post-coital test
quantitative test, cervical mucus, enzyme liquefaction 311, 318
Post-menopausal women
endometrium, morphology, function tests 2246
Posthumous assisted reproduction
debate, ethics 2573
Pre-eclampsia
calcitonin gene-related peptide, hypertension, fetal mortality, rates 895
Prednisolone
immunological infertility, letters 1585
Pregnancy
corpus luteum, LH, receptor, HCG 2291
decidua, leukocytes, progesterone, IL-8 2257
diabetes, polycystic ovary syndrome, obesity, insulin 2382
Diamond–Blackfan anaemia, donor oocytes, premature ovarian failure, case report 1123
duration of gestation, sex ratio, letters 1812
early pregnancy failure, diagnosis, β-HCG, prognosis 881
early pregnancy loss, HCG, prospective study 406
ectopic pregnancy, chorionic villi, karyotyping 2769
ectopic pregnancy, IVF, cryopreservation, donor oocytes, spontaneous resolution, HCG, case report 2785
ectopic pregnancy, IVF, delayed implantation, HCG, subunits 2750
ectopic pregnancy, laparoscopy, surgery, methotrexate, cost analysis 2762
ectopic pregnancy, methotrexate, transvaginal intratubal injection, subsequent fertility, 100 cases 420
ectopic pregnancy, risk factors, chromosome abnormalities 239
ectopic pregnancy, risk factors, hormone concentrations, oestrogen, progesterone, debate 233
ectopic pregnancy, seasonal variation, Finland, letter 683
ectopic pregnancy, subsequent fertility, population-based cohort, France 99
endometrium, Th2 cells, interleukins, menstrual cycle, immunohistochemistry 1747
Euro-Team for Early Pregnancy guidelines, recurrent spontaneous abortion, letters 912
fetal growth restriction, Klippel–Trénaunay–Weber syndrome, case report 2544
first trimester, extra-embryonic coelom, yolk sac, exchange functions 1157
first trimester, placenta, diazepam, in-vivo transfer 889
first trimester, trophoblast, oestrogen receptor, progesterone receptor, immunohistochemistry 413
heterotopic pregnancy, ovarian hyperstimulation syndrome, IVF–ET, case report 68
HIV, assisted reproductive techniques, women, ethics 2793
hypertension, risk factors, contraception, sexual cohabitation 2138
ICSI, IVF comparison, early pregnancy data, safety 440
immunology, IVF, sIL-2 receptor, intercellular adhesion molecule-1, outcome 2412
immunosuppression, feto-embryonic defence system, glycodelin, selectin 467
inhibin, extra-embryonic coelomic fluid, amniotic fluid, ELISA 2772
IVF, ongoing pregnancies, prognostic models, validation 2298
Kartagener's syndrome, three consecutive pregnancies, letter 683
multiple pregnancies, ovulation induction, cycle characteristics, risk assessment 429
multiple pregnancies, pregnancy-associated placental protein A, pregnancy-specific β-1-glycoprotein, fetal reduction 900
multiple pregnancies, risk factors, coffee, alcohol, smoking 2306
multiple pregnancy, GIFT, risk factors 655
nitric oxide, uterus, cervix, rat 1755

outcome prediction, anticardiolipin antibodies, β_2-glycoprotein I, population screening 509
primary abdominal pregnancy, laparoscopy, surgery, case report 2546
relaxin, ovulation induction, IVF, follicle number 2036
relaxin, plasma osmolality, donor oocytes, IVF 1105
sex ratio, maternal hormone concentrations, letter 1139
spontaneous pregnancy, ovarian hyperstimulation syndrome, case report 1600
superoxide dismutase, lipid peroxide, endometrium, first trimester 1073
ultrasonography, early gestation, embryonic heart rate, embryonic pole length, gestational sac size 1771
umbilical artery, contraction, endothelin-1, oxygen 2767
uterine artery, endothelium, prostaglandin $F_{2\alpha}$, guinea-pig 2041
uterine artery, IL-6 production 1337
uterine rupture, IVF, placenta percreta, case reports 1120

Pregnancy-associated placental protein A
multiple pregnancies, fetal reduction 900

Pregnancy-specific β-1 glycoprotein (SP1)
blastocysts, quality assessment, IVF 1038
multiple pregnancies, fetal reduction 900

Preimplantation diagnosis
ethics, opinion 707, 708
FISH, pronuclei, 'undocumented' embryos, detection of ploidy 2502
genetic diseases, ethics, 'eugenics', opinion 463
genetic diseases, maternal age, ethics, debate 2349
Klinefelter's syndrome, 47,XXY males, testicular sperm extraction, ICSI, FISH 1650
pros and cons, older women, genetic diseases, debate 2071

Preimplantation embryos
antibiotic-free medium, improved cleavage rate 1520
blastocysts, trophectoderm projections, time-lapse videomicrography, bovine/equine/human 2739
co-culture, alternative systems, evaluation 1525
co-culture, assisted hatching, implantation rates, ICSI 2434
co-culture, assisted hatching, IVF, multiple-failure patients, implantation rates 2429
co-culture, granulosa cells, embryo maturation, FSH-primed monkeys 1698
co-culture, nuclei number, ampullary cells 1678
co-culture, Vero cells, HCG 1966
cryopreservation, IVF, 82 children, follow-up, developmental performance 1565
culture medium, antioxidation capacity, embryo quality 2493
embryo quality, oocyte recovery, ultrasonography, follicular blood flow 109
growth, sex-related differences, sheep 621
growth factors, immunocytochemical localization, Fallopian tube 184
IVF, assisted hatching, non-contact UV laser, outcome 2488
IVF–ET, sperm–oocyte interaction, reduced exposure time, improved implantation rate, implantation 166
morphology, teratozoospermia, IVF, ICSI, implantation, comparison 1086
multinucleated blastomeres, chromosomal abnormalities, FISH 1492
protein-free culture medium, blastocyst, primate 1690
quality, oocyte retrieval, HCG, follicles, blood flow, ultrasonography 2512
second cleavage division *in vitro*, glucose, phosphate, metabolism, hamster 177
'undocumented' embryos, detection of ploidy, FISH 2502
zygotes, centrifugation, ultrastructure, electron microscopy, bovine 1499
zygotes, cytoplasts, electrofusion, development, mouse 1287

Premature ovarian failure
donor oocytes, spontaneous pregnancy, case report, letter 1359
lymphoma, Hodgkin's disease, chemotherapy, GnRH agonist, co-treatment, clinical trial 1620
steroidogenesis, immunoglobulins 1871

Prenatal diagnosis
7–9 weeks gestation, coelocentesis, fluorescent PCR 2548
fetoscopy, fetal tissue sampling, ESHRE guidelines, letter 682

Primary abdominal pregnancy
laparoscopy, surgery, case report 2546

Progesterone
acrosome reaction, CD46 antibody, letters 2067
acrosome reaction, flow cytometry, motility parameters 121
bestatin, peptidase, FSH, granulosa cells, steroidogenesis, pig 497
blood pressure, pregnancy, NO synthase inhibition, rat 2777
cathepsin D, immunostaining, endometrium, menstrual cycle 392
corpus luteum, IVF, ovulation induction, HCG, mid-luteal addition 1552
Crinone®, vaginal administration, menopausal women, endometrium, immunohistochemistry, morphometry 357
decidua, leukocytes, IL-8 2257
ectopic pregnancy, risk factors, hormone concentrations, debate 233
endometriosis, IL-6 2269
follicular fluid, granulosa–luteal cells, polycystic ovary syndrome, aromatase 2107
granulosa cells, oxytocin 152
immunosuppression, mechanism, female infertility 980
IVF, luteal support, progesterone vs progesterone + HCG, GnRHa/HMG induction, clinical trial 1602
luteal cells *in vitro*, secretion, zuclomiphene, enclomiphene, sheep 1250
luteal phase, IVF, outcome prediction, tubal infertility 2396
luteal phase deficiency, α-inhibin, endometrium 2591
luteal phase support, IVF, progesterone therapy, Crinone vs Utrogestan, multicentre randomized trial 2085
menstrual cycle, positron emission tomography, brain, glucose metabolism 2799
progesterone-only contraceptives, desogestrel, ovarian activity, vaginal bleeding patterns 737
serum concentrations, ovulation induction, GnRH antagonist, Cetrorelix, HMG 1405
sperm–oocyte interaction, follicular fluid, hemizona binding assay, acrosome reaction 2674
spermatozoa, intracellular free Ca^{2+}, acrosome reaction, IVF, predictive assays 1661

Progesterone receptor
endometrium, menstrual cycle, Norplant 2629
endometrium, vascular smooth muscle, menorrhagia, immunohistochemistry 2003
oestrogen receptor, RU 486 (mifepristone), ZK 98,299 (onapristone), endometrium, proliferation 1533
trophoblast, first trimester, immunohistochemistry 413
uterus, mucosa, leukocytes, immunohistology 1079

Progestogen
high doses, leukocytes, endometrium, necrosis, immunostaining 1713
ovulation induction, GnRH agonist, progestogen pretreatment, flare-up, IVF, outcome 1859
treatment, endometriosis, unexplained infertility, pituitary–ovarian dysfunction, follicular fluid 647

Prolactin
24 hour pattern, lactation, female fertility resumption 950
serum concentration, IVF–ET, stress, psychological evaluation 274

Prorenin
diet, sodium, angiotensin, kidney, ovary, follicular fluid 956

Prostaglandin E_2
cervical ripening, rabbit 1099

Prostaglandin $F_{2\alpha}$
granulosa cells, oxytocin 152
uterine artery, endothelium, pregnancy, guinea-pig 2041
uterine artery, endothelium, vascular smooth muscle, indomethacin 1998

Protein kinase C
myometrium, contractility, oxytocin, parturition, phospholipase D 2285

Proximal tubal occlusion
diagnosis, classification, GnRH analogue, GIFT, pregnancy rates 986
diagnosis, treatment, debate 1823
microsurgery, IVF, embryo transfer, birth rate 2613

Pseudopregnancy
GnRH, baseline concentrations, oestradiol, rat 13

Psychological evaluation
donor insemination, donor's right to retire, debate 2569
donor insemination, ICSI, choice of treatment 2461
donor insemination, Osgood questionnaire 294
donor insemination, single/married women, questionnaire 2554
IVF, children, development, behaviour, long-term outcome 2052
IVF–ET, patients' stress, daily symptom checklist 903
IVF–ET, stress, questionnaire, cortisol, prolactin 274
sex determination, maternal dominance hypothesis, sex ratio 2371
spontaneous abortion, first trimester, psychological morbidity, expectant management vs dilatation and curettage 1767

Quinacrine
acrosome reaction, detection method comparison, chlortetracycline, mannosylated BSA 741

Reactive oxygen species
IVF–ET, sperm–oocyte interaction, reduced exposure time, improved implantation rate 166
sperm–oocyte interaction, IVF, long exposure time, high sperm concentration, detrimental effect 2507
sperm function tests, delay between testing and IVF 1030
Rectal probe electroejaculation
ICSI, live birth, case report 1247
Relaxin
frozen embryo transfer, placental protein 14, IGFBP-1 88
pregnancy, follicle number, ovulation induction, IVF 2036
pregnancy, plasma osmolality, donor oocytes, IVF 1105
Renin
diet, sodium, angiotensin, kidney, ovary, follicular fluid 956
Rhesus disease
intrauterine transfusion, infertility, adhesions, peritoneum, case report 2134
Ritodrine
in vitro/in vivo influence, placenta, HCG, lactogen 664
RU 486
daily low dose, endometrium, proliferation, implantation, controlled trial 2518
GnRH, pituitary response, gonadotrophins 2585
luteal phase, endometrium, morphometric analysis, histochemistry, monkey 2026
oestrogen receptor, progesterone receptor, endometrium, proliferation, monkey 1533

Saline
hypertonic saline infusion, menstrual cycle, follicular/luteal phases, vasopressin, atrial natriuretic hormone 2392
Saliva
steroids, conception vs non-conception cycles, oestradiol, follicular phase, fecundity 2090
Salpingectomy
hydrosalpinx, IVF, debate 2079
hydrosalpinx, IVF–ET, improved pregnancy rates 523
laparoscopy, ectopic pregnancy, subsequent fertility 1199
pregnancy rates, IVF, letters 2068
Salpingitis
Chlamydia trachomatis, heat shock proteins, humoral response 1352
Salpingostomy
surgical experience, live birth rates, IVF–ET 77
Schistosomiasis
follicular fluid, IVF–ET, case report 531
Seasonal variation
ectopic pregnancy, Finland, letter 683
LH, FSH, testosterone, inhibin, circannual rhythm, men 248
sex ratio, interpregnancy interval, maternal age 7
Selectin
immunosuppression, feto-embryonic defence system, glycodelin 467
Semen
antisperm antibodies, *Chlamydia trachomatis*, heat shock proteins, hsp60 2600
antisperm antibodies, indirect immunobead test, IVF, fertilization rates 1418
bacterial infection, IVF, pregnancy rates 2789
Chlamydia trachomatis, antibodies, male infertility parameters 1408
Chlamydia trachomatis, antisperm antibodies, heterosexual transmission, infertility 1635
cryopreservation, temperature change, cryostraws, cryovials 1510
cryopreservation, testicular cancer, ICSI, pregnancy, case report 2645
IVF, bacteriology, antibiotics, asymptomatic males, unnecessary treatment 1227
preparation, pentoxifylline, intrauterine insemination, effectiveness 1236
semen analysis, HIV, p24 antigen, spermiophagy 765
semen analysis, stress, fertility, marmoset 568
semen quality, masturbation, sexual arousal 147
seminal fluid, presence/absence, intrauterine insemination, ovulation induction, pregnancy rates 1008
seminal plasma, antioxidant capacity, lipid peroxidation, chemiluminescence assay 1655
seminal plasma, CA 125, correlation with semen parameters 574
seminal plasma, IGF-I, α_2-macroglobulin, spermatozoa, maturation, motility 2454
seminal plasma, inhibits brain NO synthase activity, male infertility 561
seminal plasma, Müllerian inhibiting substance, spermatozoa, motility 2165
seminal plasma, spermatozoa, motility, zinc, fructose 2465
seminal plasma, superoxide dismutase, xanthine oxidase, spermatozoa, motility, morphology 1223
seminal volume, sperm number, trends, subfertility clinics, Athens 1977–1993 1936
sperm quality, deterioration, young Belgian men, xeno-oestrogens 325
storage, transportation, ambient temperature, citrate–egg yolk buffer, pentoxifylline, sperm function 2186
transferrin, soluble transferrin receptors, spermatogenesis, azoospermia 761
Seminal vesicle
seminal vesicle cyst diagnosis, transrectal ultrasound, azoospermia, case report 566
Sertoli cells
Sertoli-cell-only syndrome, diagnosis, ICSI, letters 229
Sertoli-cell-only syndrome, ICSI, testicular histology, outcome 127
Sex determination
maternal dominance hypothesis, sex ratio, psychological evaluation 2371
Sex preselection
family balancing, ethics, debate 2339, 2577
legislation, India, editorial 685
Sex ratio
differential implantation rates 8
donor insemination, cycle day of insemination, mammals/humans, letters 2806
genetic determinants, non-genetic determinants 939
high-voltage electricity, isolated observation 230
insemination, timing, conception, duration of gestation, letters 1812
interpregnancy interval, seasonal variation, maternal age 7
maternal dominance hypothesis, psychological evaluation 2371
maternal hormone concentrations, letter 1139
oocyte maturation, follicular phase 2
preimplantation embryos, growth, sex-related differences, sheep 621
Sexual arousal
semen quality, masturbation 147
Smoking
bacterial vaginosis, spontaneous abortion, second trimester, ethnic origin, hygiene habit 1575
multiple pregnancies, risk factors 2306
Sodium
diet, renin, prorenin, angiotensin, kidney, ovary, follicular fluid 956
Sperm–cervical mucus penetration test
clinical significance, spermatozoa, morphology, pregnancy rates 139
Sperm–hamster egg penetration test
ESHRE Andrology Special Interest Group, workshop 1463
Sperm–oocyte interaction
follicular fluid, hemizona binding assay, acrosome reaction, progesterone 2674
IVF, long exposure time, high sperm concentration, detrimental effect 2507
IVF, short exposure time, improved implantation rates, letters 1809
reduced exposure time, IVF–ET, improved implantation rate, reactive oxygen species 166
Sperm–zona binding
male infertility, classification, acrosome reaction, mannose ligands, cytoskeletal antibodies 1905
test, ESHRE Andrology Special Interest Group, workshop 1463
Sperm transport
uterus, hyperperistalsis, dysperistalsis, endometriosis, female infertility 1542
Spermatids
ICSI, blastocyst formation, cow 824
ICSI, spermatid conception, biological concerns, genetics, clinical approaches 1371
Spermatocele
cyst, azoospermia, epididymis, fine-needle aspiration, ICSI 1919
Spermatogenesis
β-thalassaemia major, hypogonadotrophic hypogonadism, hormonal profile, men 1900
transferrin, soluble transferrin receptors, semen, azoospermia 761
Spermatozoa
Acridine Orange test, sperm quality, clinical usefulness, infertility 784
acrosome reaction, CD46 antibody, progesterone, letters 2067
acrosome reaction, detection method comparison, chlortetracycline, mannosylated BSA, quinacrine 741

acrosome reaction, morphology, motility, computer-assisted sperm analysis 1240
acrosome reaction, motility parameters, progesterone, flow cytometry 121
acrosome reaction, sperm–zona binding, A23187 551
age-related sperm functions, male age 558
asthenozoospermia, ICSI, testicular vs ejaculated spermatozoa, pregnancy outcomes 1343
capacitation, fertilization-promoting peptide, chlortetracycline, hamster oocyte penetration test, thyrotrophin-releasing hormone 830
capacitation, motility, fractal analysis 1049
CD46 antigen, flow cytometry, acrosome reaction, fertilization, prediction 1923
centriole, inheritance, ultrastructure, embryos, mitosis 345
cervical mucus, Healonid (cervical mucus substitute), capacitation, acrosome reaction, chlortetracycline assay 1055
chromatin anomalies, ICSI, decondensation 837
chromosome 21 disomy, FISH 722
chromosome abnormalities, head morphologies 1942
chromosomes, condensation, DAPI staining, letter 2808
chromosomes, genetic diseases, ICSI, risk, debate 921
computer-assisted sperm analysis, videoframe rates, Hamilton–Thorn 304
cryopreservation, computer-assisted sperm analysis, cryomicroscope, direct assessment 2687
epididymal spermatozoa, co-culture, epididymal epithelium, cryopreservation, motility, fertilization, mouse 1451
epididymal spermatozoa, ICSI, sperm immobilization, improved pregnancy rates 1023
epididymal transit, chromatin condensation, flow cytometry 1457
'failed fertilized' spermatozoa, premature chromosome condensation, ICSI, cytological study 2239
globozoospermia, chromosomes, oocyte activation, mouse oocytes, ICSI 2170
hemizona binding assay, medium composition, protein source, pipette size 1516
ICSI, morphology, chromatin condensation, pregnancy rates 2468
ICSI, sperm-derived structures, chromosomes, cytoskeleton, pronucleus, rhesus monkey 1703
ICSI, testicular biopsy, cryopreservation, enzymatic preparation 752
ICSI, testicular biopsy, sperm recovery techniques, letter 1358
ICSI, testicular sperm extraction, cryopreservation, motility changes 2474
immotile spermatozoa, fertilizing ability, ICSI, Kartagener syndrome, subzonal insemination 2180
intracellular free Ca^{2+}, acrosome reaction, progesterone, IVF, predictive assays 1661
intrauterine insemination, sperm quality, sperm count, life-table analysis 732
maturation, IGF-I 2454
micromanipulation, near-infrared laser tweezers, ultraviolet exposure 2162
morphology, 'strict criteria', ICSI, outcomes 1019
morphology, clinical significance, sperm–cervical mucus penetration test, pregnancy rates 139
morphology, reproductive performance, spontaneous recurrent abortion 117
morphology, strict criteria, cut-off evaluation, asthenozoospermia, IVF 2155
morphology, strict criteria, IVF, prediction of outcome 1445
motility, computer-assisted sperm analysis, pentoxifylline 1929
motility, concentration, stress, Kobe earthquake 1244
motility, Müllerian inhibiting substance, seminal plasma 2165
motility, α_2-macroglobulin 2454
motility, morphology, seminal plasma, superoxide dismutase, xanthine oxidase 1223
motility, zinc, fructose, seminal plasma 2465
oviductal epithelium *in vitro*, acrosome reaction, ciliary beat, sperm motility 1504
Percoll preparation, kallikrein, human serum, letter 457
post-coital test, quantitative test, cervical mucus, enzyme liquefaction 311, 318
reactive oxygen species, sperm function tests, delay between testing and IVF 1030
Sertoli-cell-only syndrome, ICSI, testicular histology, outcome 127
sex chromosomes, XYY males, XXY males, in-situ hybridization 1638
sperm–zona binding, pentoxifylline, effects 814
sperm count decline, world population, statistical modelling, pollution, diet 2635
sperm number, trends, subfertility clinics, Athens 1977–1993 1936
sperm quality, deterioration, young Belgian men, xeno-oestrogens 325
sperm transport, uterine peristalsis, hysterosalpingoscintigraphy, ultrasonography 627
storage, transportation, ambient temperature, citrate–egg yolk buffer, pentoxifylline 2186
testicular biopsy, cryopreservation, ICSI, pregnancies, clinical results 1309
testicular biopsy, cryopreservation, ICSI, pregnancy, case report 1306
testicular spermatozoa, in-vitro maturation, ICSI 231

Spermiophagy
HIV, semen analysis, p24 antigen 765

Spontaneous abortion
antiphospholipid antibodies, implantation 2310

Statistics
assisted reproductive techniques, success rates, professional dishonesty 695

Steroidogenesis
corpus luteum, subpopulations, cyclic AMP, oestradiol, testosterone 1609
follicles, atresia, apoptosis, nitric oxide 2484
follicles, polycystic ovary syndrome, cell proliferation, immunohistochemistry 1387
granulosa cells, ovary, growth hormone releasing hormone, IGF-I, FSH, rat 50
ovary, granulosa cells, FSH, bestatin, peptidase, pig 497
premature ovarian failure, immunoglobulins 1871

Steroids
prednisolone, immunological infertility, letters 1585
progesterone, blood pressure, pregnancy, NO synthase inhibition, rat 2777
saliva, conception vs non-conception cycles, oestradiol, follicular phase, fecundity 2090
sex steroids, follicular fluid, TNFα, immunological infertility 265

Stress
heat shock proteins, endometrium, menstrual cycle, immunohistochemistry 633
IVF–ET, psychological evaluation, questionnaire, cortisol, prolactin 274
Kobe earthquake, spermatozoa, concentration, motility 1244
semen analysis, fertility, marmoset 568

Subzonal insemination
Kartagener syndrome, immotile spermatozoa, fertilizing ability, ICSI 2180
testicular sperm extraction, microepididymal sperm aspiration, vas deferens, congenital bilateral absence, outcomes 2151

Superoxide dismutase
endometrium, menstrual cycle, pregnancy 1073
seminal plasma, xanthine oxidase, spermatozoa, motility, morphology 1223

Symmetry
ovulation, soft-tissue measurements, menstrual cycle 2477

Tamoxifen
ovulation induction, menstruation, irregular/infrequent, ovulation induction, dydrogesterone, luteal phase compliance 1435

Teratozoospermia
IVF, ICSI, implantation, comparison 1086

Testicular sperm extraction
azoospermia, ICSI, implantation/pregnancy rates 673
azoospermia, non-obstructive, ICSI, FSH 2176
azoospermia, obstructive/non-obstructive, ICSI, outcomes 1015
azoospermia, obstructive vs non-obstructive, testicular sperm culture, outcomes, letters 1587
cryopreservation, spermatozoa, motility changes, ICSI 2474
fine-needle aspiration, ICSI, delivery 769
frozen–thawed biopsy, ICSI, pregnancy, case report 2472
frozen-thawed testicular biopsy, ICSI, pregnancy, case report 2197
ICSI, cryopreservation, enzymatic preparation 752
ICSI, sperm recovery techniques, letter 1358
ICSI, subzonal insemination, IVF, vas deferens, congenital bilateral absence, outcomes 2151
Klinefelter's syndrome, 47,XXY males, ICSI, preimplantation diagnosis, FISH 1650
Klinefelter's syndrome, 47,XXY males, ICSI 1644
non-obstructive azoospermia, ICSI, pregnancy rates 756
spermatozoa, cryopreservation, ICSI, pregnancies, clinical results 1309

spermatozoa, cryopreservation, ICSI, pregnancy, case report 1306
testicular histology, ICSI, outcomes, correlation, letters 2567
Testis
testicular cancer, semen, cryopreservation, ICSI, pregnancy, case report 2645
Testosterone
circannual rhythm, men 248
polycystic ovary syndrome, hyperinsulinaemia, acarbose, premenopausal women 2377
steroidogenesis, corpus luteum, subpopulations 1609
Th2 cells
interleukins, endometrium, menstrual cycle, pregnancy, immunohistochemistry 1747
β-Thalassaemia major
hypogonadotrophic hypogonadism, hormonal profile, spermatogenesis, men 1900
Thromboembolism
ovarian hyperstimulation syndrome, internal jugular vein, letters 1358
subclavian aorta, ovarian hyperstimulation syndrome, case report 1173
Thyroid antibodies
reproductive failure, immunological infertility, IVF 1627
Thyrotrophin-releasing hormone
fertilization-promoting peptide, capacitation, spermatozoa, chlortetracycline, hamster oocyte penetration test 830
Tight junctions
corpus luteum, zonula occludens-1, immunohistochemistry, baboon 1262
Transferrin
soluble transferrin receptors, semen, spermatogenesis, azoospermia 761
Transvaginal interstitial laser treatment (TILT)
anovulation, clomiphene resistance, ultrasonography, feasibility study, cow 808
Transvaginal oocyte retrieval
dermoid cyst, acute abdomen, case report 1897
Triploidy
oocytes, IVF, gestational trophoblastic disease, case report 1529
Trisomy 21
donor insemination, French CECOS data 2319
Trophectoderm
polar trophectoderm, blastocyst, clonal analysis, mouse 1979
trophectoderm projections, blastocysts, time-lapse videomicrography, bovine/equine/human 2739
Trophoblast
first trimester, oestrogen receptor, progesterone receptor, immunohistochemistry 413
Tubal ligation
Doppler blood flow, uterine artery, ovarian artery 1195
Tubal transfer
GIFT, ZIFT, clinical role, debate 1815
Tuberculosis
uterus, rupture, hysteroscopy, synechiae, IVF–ET, case report 291
Tumour necrosis factor
TNFα, immunological infertility, sex steroids, follicular fluid 265
TNFα, ovary, granulosa cells, oestradiol, secretion, FSH, follicle size 1256
TNFα, plasma concentrations, ovarian hyperstimulation syndrome, significant correlation 1381
TNFα, pre-ovulatory serum, ovarian hyperstimulation syndrome, predictive failure 1377
TNFα and β, peritoneal fluid, endometriosis, pain 380
TNFα, endometriosis, IL-6 2269
TNFα production, endometrium, epithelium, stroma, *in vitro* 1318
Turner syndrome
cardiological abnormalities, egg donation, risk, letter 1587
Twins
spontaneous vs multifetal reduction, pregnancy outcomes 1334
Tyrosine kinase receptors
flt, KDR, vascular endothelial growth factor, placenta, decidua, immunohistochemistry 1090

Ultrasonography
colour Doppler imaging, polycystic ovary syndrome, diagnosis, letters 915
early gestation, embryonic heart rate, embryonic pole length, gestational sac size 1771
endometrium, echo pattern, diethylstilboestrol, IVF, outcome prediction 2719
endometrium, follicular phase, female infertility, morphometry, histology 1719
endometrium, thickness, pregnancy prediction, IVF, ICSI 1538
fetal liver length, diagnostic applications 2758
fetus, heart rate, umbilico-placental blood flow, first trimester, chromosome abnormalities, nuchal thickness 435
follicles, blood flow, HCG, oocyte retrieval, preimplantation embryos, quality 2512
follicular blood flow, oocyte recovery, embryo quality 109
hysterosalpingoscintigraphy, uterine peristalsis, sperm transport 627
septate uterus, transvaginal, evaluation 1004
transrectal, endometriosis, uterosacral ligaments 2014
transrectal ultrasound, seminal vesicle cyst diagnosis, azoospermia, case report 566
transvaginal colour Doppler, clinical value, uterine blood flow, debate, IVF 1589
transvaginal interstitial laser treatment (TILT), anovulation, clomiphene resistance, feasibility study, cow 808
uterine artery, blood flow, IVF–ET, spontaneous vs stimulated cycles 364
uterine artery, transvaginal colour Doppler, IVF, clinical value, letters 2333
uterus, vascular/morphological changes, positive urinary LH self-test 369
varicocele, diagnosis, palpation, varicoscreen contact thermography, comparison 1232
Ultraviolet exposure
spermatozoa, micromanipulation 2162
Umbilical artery
contraction, endothelin-1, oxygen 2767
umbilico-placental blood flow, heart rate, chromosome abnormalities, nuchal thickness, first trimester, ultrasonography 435
Uric acid
polycystic ovary syndrome, metabolic syndrome, insulin, obesity, diabetes 2405
Uterine artery
blood flow, ultrasonography, IVF–ET, spontaneous vs stimulated cycles 364
blood flow impedance, female infertility, electro-acupuncture, clinical outcomes 1314
endothelium, pregnancy, prostaglandin $F_{2\alpha}$, guinea-pig 2041
endothelium, vascular smooth muscle, prostaglandin $F_{2\alpha}$, indomethacin 1998
IL-6 production, pregnancy 1337
transvaginal colour Doppler, clinical value, uterine blood flow, debate, IVF 1589
tubal ligation, Doppler blood flow 1195
ultrasonography, transvaginal colour Doppler, IVF, clinical value, letters 2333
Uterosacral ligaments
endometriosis, ultrasonography, transrectal 2014
Uterus
appendiceal uterine transplantation, mucocele, case report 1433
bicervical non-septate uterus, longitudinal vaginal septum, case report 218
bicornuate uterus, twin pregnancy in separate horns, IVF, case report 2316
diethylstiboestrol, exposure, vascular/morphological changes, ultrasonography 2531
endometrium, stromal sarcoma, hysteroscopy, diagnosis, case report 2797
glandular volume, menstrual cycle, ovulation induction, IVF–ET, hormone replacement therapy 376
hyperperistalsis, dysperistalsis, endometriosis, female infertility 1542
leiomyoma, cultured cell explants, microscopy, time-lapse cinematography 1724
leiomyomata, myomectomy, laparoscopy, debate 1837
mucosa, leukocytes, oestrogen receptor, progesterone receptor, immunohistology 1079
myomectomy, laparoscopy, clinical practice, debate 933
myomectomy, laparoscopy, large intramural myomas, fertility outcomes 518
myometrium, contractility, oxytocin, protein kinase C, parturition, phospholipase D 2285
nitric oxide, pregnancy, parturition, rat 1755
rupture, hysteroscopy, synechiae, tuberculosis, IVF–ET, case report 291
septate uterus, hysteroscopic metroplasty, residual septum, pregnancy rates 727
septate uterus, IVF, preclinical abortions, hysteroscopy 730
septate uterus, ultrasonography, transvaginal, evaluation 1004

tubo-uterine sphincter, intramural portion, reflex 2527
uterine peristalsis, sperm transport, hysterosalpingoscintigraphy, ultrasonography 627
uterine rupture, IVF, case reports, placenta percreta 1120
vascular endothelial growth factor, tyrosine kinase receptors, flt, KDR, immunohistochemistry 1090
vascular/morphological changes, ultrasonography, positive urinary LH self-test 369

Vagina
agenesis, neovaginoplasty, laparoscopy, clinical results 200
agenesis, vaginoplasty, IVF, live birth, case report 1654
bacterial vaginosis, spontaneous abortion, second trimester, ethnic origin, hygiene habit, smoking 1575
bicervical non-septate uterus, longitudinal vaginal septum, case report 218
combined contraceptive vaginal ring, local effects, epithelium 2443
intravaginal culture, oxygen tension, pH, IVF 1293
vaginal septum, double cervix, normal uterus, case report 1350
Varicocele
diagnosis, contact thermography, letters 2565
diagnosis, palpation, varicoscreen contact thermography, colour Doppler, spermatic venography, comparison 1232
Vas deferens
congenital bilateral absence, testicular sperm extraction, microepididymal sperm aspiration, ICSI, subzonal insemination, IVF outcomes 2151
Vascular disease
pregnancy, fetal growth restriction, Klippel–Trénaunay–Weber syndrome, case report 2544
Vascular endothelial growth factor
peritoneal fluid, endometriosis, cyclic variation 220
tyrosine kinase receptors, flt, KDR, placenta, decidua, immunohistochemistry 1090
Vasectomy
seminal plasma, α_2-macroglobulin, IGF-I 2454
Vasopressin
menstrual cycle, follicular/luteal phases, hypertonic saline infusion 2392
Vero cells
co-culture, preimplantation embryos, HCG 1966
embryos, co-culture, endometrial cells, IGFBPs, mouse 1281

Weight loss
female infertility, obesity, hormonal profile, insulin 1884
White blood cells
ovary, populations, localization, menstrual cycle, menopause 790

Xanthine oxidase
seminal plasma, superoxide dismutase, spermatozoa, motility, morphology 1223
Xeno-oestrogens
sperm quality, deterioration, young Belgian men 325

Yolk sac
exchange functions, extra-embryonic coelom, first trimester 1157

ZIFT
clinical role, debate 1815
Zinc
seminal plasma, spermatozoa, motility 2465
ZK 98,299 (onapristone)
oestrogen receptor, progesterone receptor, endometrium, proliferation, monkey 1533
Zona pellucida
assisted hatching, laser zona thinning, IVF–ET, pregnancy rates 590
hemizona assay, zona pellucida penetration assay, antisperm antibodies, mouse/human 2595
hemizona binding assay, follicular fluid, acrosome reaction, sperm–oocyte interaction 2674
hemizona binding assay, spermatozoa, medium composition, protein source, pipette size 1516
ICSI, scanning electron microscopy 2693
photoablation, infrared diode laser, pregnancy rates, mouse 1043
photoablation, UV laser, variable sperm concentration, fertilization, implantation, mouse 1273
sperm–zona binding, A23187, acrosome reaction 551
sperm–zona binding, male infertility, classification, acrosome reaction, mannose ligands 1905
sperm–zona binding, pentoxifylline, effects 814
zona drilling, non-contact UV laser, assisted hatching, IVF, outcome 2488
zona hardening, cryopreservation, formaldehyde, non-enzymatic formation, mouse 2681
Zonula occludens-1
corpus luteum, tight junctions, immunohistochemistry, baboon 1262
Zygotes
centrifugation, ultrastructure, electron microscopy, bovine 1499
cytoplasts, electrofusion, development, mouse 1287
IVF, polyspermy, pronucleus removal, births, mice 341
multipronuclear zygotes, ICSI, chromosome abnormalities, cytoskeleton 2496
